PLAINTIFF’S ORIGINAL COMPLAINT FOR PATENT INFRINGEMENT

Silent Communication, LLC., (“Silent”) files this Original Complaint and demand for jury trial seeking relief from patent infringement of the claims of U.S. Patent No. 8,229,409 (“the ‘409 patent”) (referred to as the “Patent-in-Suit”) by Lifesize, Inc., (“Lifesize”).

I. THE PARTIES

1. Plaintiff Silent is a Texas Limited Liability Company with its principal place of business located in Travis County, Texas.

2. On information and belief, Lifesize is a corporation existing under the laws of the State of Delaware, with a principle place of business located at 1601 S. Mopac Expressway, Suite 100, Austin, TX 78746. On information and belief, Lifesize sells and offers to sell products and services throughout Texas, including in this judicial district, and introduces products and services that perform infringing methods or processes into the stream of commerce knowing that they would be sold in Texas and this judicial district. Defendant may be served through their registered agent at, CT Corporation System, 1999 Bryan St., Ste 900, Dallas, TX 75201-3136.

II. JURISDICTION AND VENUE

3. This Court has original subject-matter jurisdiction over the entire action pursuant to 28 U.S.C. §§ 1331 and 1338(a) because Plaintiff's claim arises under an Act of Congress relating to patents, namely, 35 U.S.C. § 271.

4. This Court has personal jurisdiction over Defendant because: (i) Defendant is present within or has minimum contacts within the State of Texas and this judicial district; (ii) Defendant has purposefully availed itself of the privileges of conducting business in the State of Texas and in this judicial district; and (iii) Plaintiff's cause of action arises directly from Defendant's business contacts and other activities in the State of Texas and in this judicial district.

5. Venue is proper in this district under 28 U.S.C. §§ 1391(b) and 1400(b). Defendant has committed acts of infringement and has a regular and established place of business in this District. Further, venue is proper because Defendant conducts substantial business in this forum, directly or through intermediaries, including: (i) at least a portion of the infringements alleged herein; and (ii) regularly doing or soliciting business, engaging in other persistent courses of conduct and/or deriving substantial revenue from goods and services provided to individuals in Texas and this District.

III. INFRINGEMENT

A. Infringement of the '409 Patent

6. On July 24, 2012, U.S. Patent No. 8,229,409 ("the '409 patent", attached as Exhibit A) entitled "System And Method For Telephone Communication" was duly and legally issued by the U.S. Patent and Trademark Office. Silent owns the '409 patent by assignment.

7. The '409 patent relates to activating alternate communication methods when when a call is erroneously disconnected.

8. Lifesize maintains, operates, and administers methods and systems for activating alternate communication methods when when a call is erroneously disconnected that infringe, directly and indirectly, through contributory and/or induced infringement the claim of the '409 patent, literally or under the doctrine of equivalents. Defendant put the inventions claimed by the '409 Patent into service (i.e., used them); but for Defendant's actions, the claimed-inventions embodiments involving Defendant's products and services would never have been put into service. Defendant's acts complained of herein caused those claimed-invention embodiments as a whole to perform, and Defendant's procurement of monetary and commercial benefit from it.

9. Support for the allegations of infringement may be found in the following preliminary table:

- b. award Silent damages in an amount sufficient to compensate it for Defendant's infringement of the Patents-in-Suit in an amount no less than a reasonable royalty or lost profits, together with pre-judgment and post-judgment interest and costs under 35 U.S.C. § 284;
