**(INJUNCTIVE RELIEF DEMANDED)**

Plaintiff VOLTSTAR TECHNOLOGIES, INC. by and through its undersigned counsel, brings this Complaint against Defendant ALDI INC. for Patent Infringement, and in support, alleges as follows:

**NATURE OF THE LAWSUIT**

1. This is an action for patent infringement of United States Patent Number 9,024,581, and its Reissue Patent Number RE48,794 E (hereinafter, the “‘794 Patent”) arising under the patent laws of the United States Title 35, United States Code §§ 1 *et seq.* to enjoin further infringement and obtain damages resulting from Defendant Aldi Inc.’s unauthorized manufacture, use, offer to sell and sale in the United States of a product identified and described herein as Aldi Bauhn 2 Port Wall Charger in violation of Plaintiff Voltstar’s rights under U.S. Patent No. ‘794 Patent.

**JURISDICTION AND VENUE**

2. This Court has original and exclusive subject matter jurisdiction pursuant to 28 U.S.C. § 1331; 28 U.S.C. § 1338(a); and 35 U.S.C. § 271.

CALIFORNIA ♦ GEORGIA ♦ FLORIDA ♦ TENNESSEE ♦ NEW YORK

3. This Court has personal jurisdiction over the Defendant.

4. Venue is proper in this district pursuant to 28 U.S.C. § 1400(b) because Aldi Inc. has committed acts of infringement and has a regular and established place of business within this judicial district and division. The accused product herein was purchased on January 15, 2022 at the Aldi's store located at 21579 State Road 7, Boca Raton Florida 33428.

#### **THE PLAINTIFF**

5. Plaintiff, Voltstar Technologies, Inc. ("Voltstar"), is a Illinois Corporation with a principal place of business located at P.O. Box 3727, Barrington, IL 60010.

#### **THE DEFENDANT**

6. Aldi Inc. ("Aldi") is an Illinois Corporation with its principal place of business at 1200 N. Kirk Road, Batavia, IL 60510, and can be served by serving its Registered Agent, Meredith Oliva, 1200 N. Kirk Road, Batavia, IL 60510.

#### **THE PLAINTIFF'S PATENT**

7. Voltstar owns all right, title and interests in, and/or has standing to sue for infringement of United States Patent Number RE48,794 E (the " '794 patent"), entitled "Charger Plug With Improved Package", issued October 26, 2021. A copy of the '794 Patent is attached hereto as **Exhibit 1**.

8. Prior to May 21, 2008, James W. McGinley, Donald Rimdzius, and David P. Marcusen, invented a novel and non-obvious Charger Plug with Improved Package.

9. McGinley, Rimdzius, and Marcusen applied for and obtained United States Patent No. 9,024,581 (the "'581 patent") entitled "Charger Plug with Improved Package Electrical Charger" which was duly and legally issued on May 5, 2015.

10. McGinley, Rimdzius and Marcusen assigned all right, title and interest in and to the '581 Patent to Horizon Technologies, Inc. in May, 2008, which was recorded at the United

States Patent and Trademark Office on May 21, 2008 at Reel 20979, Frame 56. Horizon Technologies, Inc. changed its name to Voltstar Technologies, Inc. and recorded such change of name at the United States Patent and Trademark Office on March 1, 2010, and corrected on November 22, 2010 at Reel 25411, Frame 783.

11. In general, non-legal terms, the '581 Patent relates to a Charger that is to be connected between a source of AC power, such as a wall outlet, and a device such as a mobile phone that includes a battery with the battery being rechargeable through the use of DC power. The size and shape of the Charger are such that upon plugging the Charger into a source of AC power such as a wall outlet, (a) the Charger does not block or interfere with the use of adjacent outlets and (b) the Charger does not interfere with objects or furniture that may be placed adjacent to or in front of the outlet. In addition, the size and shape of the Charger are such that (a) a power cord for the device to be charged may be easily inserted into and removed from the Charger while the Charger is plugged into the source of AC power and (b) removal of the power cord from the Charger can be accomplished without removal of the Charger from the source of AC power. An example of the "Charger Plug with Improved Package Electrical Charger" is shown below:

12. On October 26, 2021, the U.S. Patent No. 9,024,581 was reissued as Patent Number US RE48,794 E “the ‘794 Patent. The reissued ‘794 Patent, in part, specifically amended Claim 1(i) to now state: “being sized so that the charger plug housing comprises a longitudinal length extending between the front wall and the rear end and the longitudinal length is less than 2.0 inches, a width of the housing outer profile being less than 1.75 inches ...”<sup>1</sup>

13. Pursuant to 35 U.S.C. § 252, Claim 1 of the reissued ‘794 Patent is substantially identical with the original U.S. Patent No. 9,024,581 in that it has only limited the sizing dimensions of the claimed invention. Therefore, the reissued ‘794 Patent is a continuation of the original U.S. Patent No. 9,024,581 and has effect continuously from the date of the original patent as May 5, 2015.

### **DEFENDANT’S PRODUCT**

#### **Accused Product – BAUHN 2-Port Wall Charger**

14. Aldi makes, uses, offers for sale and sells BAUHN 2-Port Wall Charger. An example of the BAUHN 2-Port Wall Charger distributed by Aldi is shown below.

---

<sup>1</sup> The previous language of the U.S. Patent No. 9,024,581 Claim 1(i) stated: “being sized so that the charger plug housing comprises a longitudinal length extending between the front wall and the rear end and the longitudinal length is equal to or less than 2.0 inches ...”

On reissue, the USPTO amended the claim language. The bolded language was omitted and the italicized portion was included, shown as follows: “being sized so that the charger plug housing comprises a longitudinal length extending between the front wall and the rear end and the longitudinal length is [equal to or] less than 2.0 inches, *a width of the housing outer profile being less than 1.75 inches ...*”

The BAUHN 2-Port Wall Charger indicates that it is “DIST & SOLD EXCLUSIVELY BY ALDI, BATAVIA IL 60510[.]”

15. Aldi advertises the use of and sells its BAUHN 2-Port Wall *Charger* that is to be connected between a source of AC power, such as a wall outlet, and a device such as a mobile phone that includes a battery with the battery being rechargeable through the use of DC power.

16. In particular, the BAUHN 2-Port Wall Charger distributed by Aldi employ a reduced plug-size charger plug, that upon plugging the BAUHN 2-Port Wall Charger into a source of AC power such as a wall outlet, the BAUHN 2-Port Wall Charger does not block or interfere with the use of adjacent outlets.

17. Moreover, the size and shape of the BAUHN 2-Port Wall Charger are such that a power cord for the device to be charged may be easily inserted into and removed from the BAUHN 2-Port Wall Charger while the charger is plugged into the source of AC power and removal of the power cord from the BAUHN 2-Port Wall Charger can be accomplished without removal of the charger from the source of AC power.

18. Attached hereto as **Exhibit 2** is a Claim Chart that illustrates each element of the infringing BAUHN 2-Port Wall Charger as compared to Claim 1 in the ‘794 Patent.

19. Defendant Aldi infringed at least one of the claim of the ‘794 Patent by offering to sell and by selling a charger plug identified as BAUHN 2-Port Wall Charger.

20. The BAUHN 2-Port Wall Charger has a longitudinal length less than 2 inches, approximately 1.087 inches, and a width of less than 1.75 inches, approximately 1.166 inches.
