**COMPLAINT FOR DECLARATORY JUDGMENT OF PATENT NON-
INFRINGMENT, DECLARATORY JUDGMENT OF PATENT
INVALIDITY, DECLARATORY JUDGMENT OF PATENT
UNENFORCEABILITY, TORTIOUS INTERFERENCE,
AND JURY DEMAND**

Plaintiff BigNJ, Inc. (“BigNJ”) hereby complains and alleges as follows against Defendants Vacu Vin Innovations Ltd. (“VV”) and AMZ Watchdog, LLC (“AMZW”):

INTRODUCTION

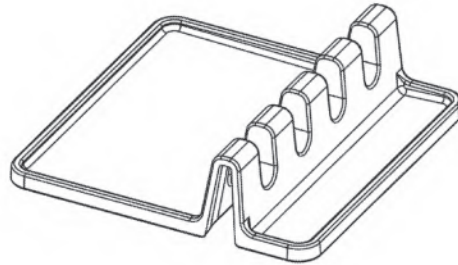

1. This case involves a design patent for a utensil rest. In response to the Defendants’ repeated and wrongful claims of patent infringement, Plaintiff BigNJ brings this civil action seeking a declaratory judgment of non-infringement, unenforceability, and invalidity of U.S. Design Patent D904,832 (“D832 Patent”) together with damages for tortious interference for the Defendants’ bad faith assertion of the invalid D832 Patent.

2. The design patent laws of the United States allow for a patent covering a “new, original, and ornamental design” 35 U.S.C. § 101. An inventor may be entitled to such a design patent *unless* “the claimed invention was patented, described in a printed publication, or in public use, on sale, or otherwise available to the public before the effective filing date of the claimed invention;” 35 U.S.C. § 102(a)(1).

3. It is a fundamental aspect of patent law that “no person is entitled to patent an ‘invention’ [or design] that has been ‘on sale’ more than one year before filing a patent application.” *Pfaff v. Wells Elecs., Inc.*, 525 U.S. 55, 57 (1998).

4. In this case, VV filed its design patent application for U.S. Patent D904,832 (“D832 Patent”) *more than one year* after VV’s affiliate began selling a product identical to the claimed design as depicted in VV’s patent application.

5. VV’s affiliate’s product and a figure from the D832 Patent are shown below:

Tomorrow's Kitchen Facebook

([hyperlink](#) to Facebook photo)

U.S. Patent D904,832 (“D832 Patent”)
Application filed November 8, 2017
([hyperlink](#) to 'D832 Patent)

6. The 'D832 Patent is thus anticipated by VV's affiliate's identical prior art designs.

7. Even worse, VV knew of its affiliate's designs and—in a brazen violation of its duty of candor—failed to disclose those prior art designs to the USPTO Examiner.

8. Although both Defendants knew the 'D832 patent is invalid, VV and AMZW continued to repeatedly assert the 'D832 Patent against VV's competitors—including *Plaintiff BigNJ*—in an effort to gain a wrongful and unfair business advantage.

THE PARTIES

9. Plaintiff BigNJ, Inc., is a New York corporation with a principal place of business at 5 Yardley Drive, Dix Hills, New York 11746 (hereinafter “BigNJ” or “Plaintiff”).

10. Defendant Vacu Vin Innovations Ltd. is a Dutch corporation with a principal place of business at Groothandelsweg 1, Delfgauw 2645 EH, Netherlands (hereinafter

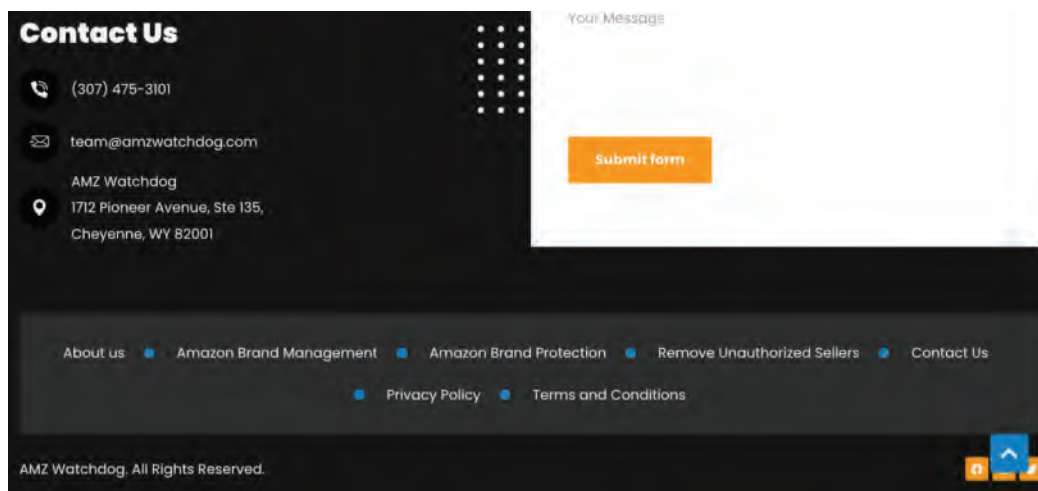

“VV” or “Defendant”). VV is part of the Dutch Creative Brands Group together with its affiliate “Tomorrow’s Kitchen.” VV does business within the State of Wyoming, is engaged in continuous and systematic business within the District of Wyoming, conducts and solicits business within this judicial district (including its patent enforcement business with AMZW), and VV derives substantial revenue from its activities in this judicial district.

11. Defendant AMZ Watchdog, LLC is a Wyoming limited liability corporation with a principal place of business at 1876 Horse Creek Rd., Cheyenne, WY 82009 (hereinafter “AMZW” or “Defendant”). AMZW is resident in the State of Wyoming, does business within the State of Wyoming, is engaged in continuous and systematic business within the District of Wyoming. In addition, AMZW conducts and solicits business within this judicial district, and derives substantial revenue from the sales of its products and/or services within this judicial district—including its sale of the services at issue in this litigation. On information and belief, AMZW sold services and has made offers for patent enforcement services in Wyoming and within this judicial district, including offers to VV.

JURISDICTION AND VENUE

12. This is an action for declaratory judgment of patent non-infringement, patent unenforceability, and patent invalidity arising under the patent laws of the United States, 35 U.S.C. §§ 1 *et seq.* The Court has subject matter jurisdiction under 28 U.S.C. § 1331 (federal question); 28 U.S.C. § 1338(a) (patents or trademarks); and 28 U.S.C. § 1367 (supplemental jurisdiction).

13. The Court has personal jurisdiction over AMZW because it resides in this judicial district and has had continuous and systematic contacts within the State of Wyoming. AMZW is headquartered in Wyoming, as stated on its website homepage:

<https://www.amzwatchdog.com>

As shown above, AMZW is headquartered and maintains a principal place of business in Cheyenne, Wyoming. AMZW purposefully directs business contacts and activities at this judicial district and residents of this judicial district have used services and products offered or sold by AMZW. On information and belief, AMZW is registered with the State of Wyoming to do business in Wyoming as a limited liability company.

14. This Court has personal jurisdiction over VV because it is a foreign corporation that contracted with a resident of the State of Wyoming (i.e., AMZW) for the purposes of enforcing its intellectual property against competitors in the United States. On information and belief, VV engaged in continuous and systematic contacts with AMZW in the State of Wyoming, including its contacts related to the 'D832 Patent and with AMZW,

which is located within this judicial district. On information and belief, VV has purposefully directed its business contacts and activities at this judicial district for the purposes of effecting the patent enforcement of the 'D832 Patent.

15. This Court has federal question jurisdiction under 28 U.S.C. §§ 1331 and 1338(a) because this is a civil declaratory judgment action arising under the Patent Act. This Court has subject matter jurisdiction over the declaratory judgment claims pursuant to 28 U.S.C. §§ 2201 and 2202 because an immediate and substantial controversy exists between Plaintiff and Defendants with respect to whether the 'D832 Patent covers Plaintiff's products based on the Defendants claims to Amazon that the Plaintiff's products infringe the 'D832 Patent, which has resulted in the suspension of the Plaintiffs' product listings on Amazon.com.

16. This Court has supplemental jurisdiction over Plaintiff's claims of tortious interference with economic or business relationship under 28 U.S.C. § 1367 because those claims relate to the same operative nucleus of fact as Plaintiff's claims for declaratory judgment of non-infringement of the 'D832 Patent.

17. Venue is proper in this judicial district under 28 U.S.C. § 1391(b) because a substantial part of the events giving rise to this claim took place in this judicial district, because Defendant AMZW resides and transacts business within this judicial district and because Defendant VV contracted with Defendant AMZW to provide services within this judicial district, and because Plaintiff suffered harm in this judicial district.

FACTUAL ALLEGATIONS

18. Plaintiff sells a silicone utensil rest on Amazon.com, as shown below at Amazon ASINs¹ including B0874S275K (the “Accused Products”).

The screenshot shows the Amazon product page for a 'Grey Silicone Spoon holder for Stove Top with Drip Pad (Two Pack)'. The product is priced at \$7.99, a 11% discount from the list price of \$8.99. It is sold by 'Cooler Kitchen' and has a 4.7-star rating from 3,564 reviews. The listing includes an 'Amazon's Choice' badge and a promotional code 'COOLER20' for a 20% discount on 3 select items. The product specifications are: Material: Silicone, Color: Gray, Brand: Cooler Kitchen, Item Dimensions: 9.06 x 6.3 x 2.76 inches, and Pattern: Solid. The page also shows delivery options, a 'FREE Returns' badge, and a 'FREE Prime delivery Monday, July 24' offer.

19. Silicone utensil rest products are not new. In fact, such products have been available from sellers like the VV (and its affiliate Tomorrow’s Kitchen) since early 2016. For example, such products are shown below in a product catalog produced by VV’s affiliate Tomorrow’s Kitchen as early as **January 2016**:

¹ Amazon assigns each product listing on its marketplace a unique “Amazon Standard Identification Number” which is abbreviated as “ASIN.” Each ASIN is associated with a unique product listing on Amazon, which maintains millions of ASINs associated with numerous unique product listings.

26. In addition to Amazon, Tomorrow’s Kitchen also operated its own website that offered its Utensil Rest products for sale as early as **July 5, 2016**, as demonstrated by

the Wayback Machine® archives of Tomorrow's Kitchen's website:

See Exhibit F

 (data captured by Archive.org on July 5, 2016)

27. Notwithstanding the foregoing public disclosure, on **November 8, 2017**—*more than one year after Tomorrow's Kitchen disclosed the claimed design*—VV filed for patent protection for the Tomorrow's Kitchen utensil rest product. *See* Exhibit A.

28. During the patent prosecution of the 'D832 Patent, VV owed a duty of candor to the USPTO to disclose information material to patentability. *See* 37 C.F.R. § 1.56.

29. VV knew of prior public uses, sales, and disclosures of the claimed design by Tomorrow's Kitchen.

30. VV knew of the Tomorrow's Kitchen 2016 Catalog.

31. VV knew of the Tomorrow's Kitchen 2016 Amazon Listing B01CPB3CK6

32. VV knew of Tomorrow's Kitchen's own website, which advertised products for sale including a utensil holder identical to the 'D832 Patent.

33. VV knew of Tomorrow's Kitchen's Facebook postings.

34. Notwithstanding its duty of candor to the USPTO during the prosecution of the 'D832 Patent, VV failed to disclose to the USPTO any of its prior sales, prior disclosures, and prior public uses of the claimed design. *See* Exhibit G.

35. VV's prior sales, prior disclosures, and prior public uses were material to patentability.

36. If the Examiner of the 'D832 Patent had been aware of Tomorrow's Kitchen's prior sales, prior disclosures, and prior public uses of the claimed design, the Examiner would not have allowed the 'D832 Patent to issue.

37. But without the knowledge of the relevant prior art—*i.e.*, *Tomorrow's Kitchen's prior sales, prior disclosures, and prior public uses of the claimed design*—the USPTO allowed the 'D832 Patent to issue.

38. VV's actions in obtaining the 'D832 Patent were in bad faith because VV had actual knowledge of Tomorrow's Kitchen's prior sales, prior disclosures, and prior public uses of the claimed design and failed to disclose that information to the USPTO.

39. Upon the issuance of the 'D832 Patent, VV and AMZW began to aggressively assert the 'D832 Patent on Amazon.com against VV's competitors.

40. On May 13, 2023, Michiel Rodrigues Pereira with VV asserted the 'D832 Patent against three Amazon ASINs owned by Plaintiff BigNJ: B0874SHJFX, B0874S275K, and B0874S11MY. *See* Exhibit H.

41. BigNJ advised Amazon that the 'D832 Patent was invalid *at least* because it had been included in the Tomorrow's Kitchen January 2016 catalog. Upon learning this information, Amazon reinstated BigNJ's product listings.

42. On July 3, 2023, Chris Keef of AMZW again asserted the 'D832 Patent against one ASIN owned by Plaintiff BigNJ: B0874SHJFX. *See* Exhibits I.

43. BigNJ again advised Amazon that the 'D832 Patent was invalid *at least* because it had been included in the Tomorrow's Kitchen January 2016 catalog. Upon learning this information, Amazon once again reinstated BigNJ's product listing.

44. BigNJ contacted Chris Keef of AMZW on July 3, 2023, and advised that the 'D832 Patent was invalid and should not be asserted against BigNJ's product listings.

45. In response, Chris Keef of AMZW called BigNJ and left the following voicemail:

Hey, good afternoon Brandon. Chris Keef calling on behalf of your voicemail this morning in regards to the Vacu Vin design patent claim. 1-317-028-2501. I'll refer you to legal counsel, Rosenbaum and Segall. Speak to Rob Segall. His phone number is 212-256-8490. I'll respectfully request all correspondence go through Rob and his uh team who operate the legal matters on our behalf. That's Rob Segall 212-256-8490.

46. On July 4, 2023, AMZW again asserted the 'D832 Patent against three Amazon ASINs owned by Plaintiff BigNJ: B0874SHJFX, B0874S275K, and B0874S11MY. *See* Exhibit J.

47. The impact on BigNJ's Amazon account was immediate. BigNJ's product listings for the Accused Products were disabled and BigNJ experienced substantial business disruption and thousands of dollars in lost revenue. BigNJ was forced to disable its "Prime Day" specials on two of the biggest shopping days of the year. *See* Exhibit K.

48. AMZW was unwilling to engage in a constructive dialog with BigNJ regarding the invalid 'D832 Patent and was unwilling to withdraw its wrongful complaints, which caused further damages to BigNJ.

49. AMZW's actions were in bad faith because—when presented with evidence that the 'D832 Patent was invalid—AMZW refused to withdraw its wrongful complaints of patent infringement for the 'D832 Patent.

50. Because of VV's and AMZW's wrongful acts, BigNJ lost and continues to lose thousands of dollars per day in online sales.

FIRST CAUSE OF ACTION
Declaratory Judgment of Patent Invalidity of the 'D832 Patent
(Against VV)

51. BigNJ incorporates and realleges each and every allegation in the preceding Paragraphs as if fully set forth herein.

52. VV is the owner of the 'D832 Patent.

53. The 'D832 Patent is invalid at least under 35 U.S.C. §§ 102 and 103 in view of the prior art, including but not limited to, Tomorrow's Kitchen's own products, prior public use, prior sales, and prior offers for sale, which occurred more than one-year before the filing of the patent application that would become the 'D832 Patent. *See* Exhibits B, C, D, E, F.

54. The 'D832 Patent was not filed until November 8, 2017. *See* Exhibit A.

55. The 'D932 Patent is invalid in view of the prior art.

56. BigNJ is entitled to a declaratory judgment that the 'D832 Patent is invalid.

SECOND CAUSE OF ACTION

Declaratory Judgment of Unenforceability of the 'D832 Patent (Against VV)

57. BigNJ incorporates and realleges each and every allegation in the preceding Paragraphs as if fully set forth herein.

58. VV is the owner of the 'D832 Patent.

59. During the patent prosecution of the 'D832 Patent, VV was aware of Tomorrow's Kitchen's prior sales, prior disclosures, and prior public uses of the claimed design. *See* Exhibits B, C, D, E, F. Such prior sales, prior disclosures, and prior public uses of the claimed design—which were identical to the Defendant's design patents—were material to the patentability of the 'D832 Patent. Tomorrow's Kitchen was an affiliate of VV and VV would have been aware of such products.

60. In violation of its duty of candor to the USPTO, and with the intent to deceive the USPTO, VV did not disclose Tomorrow's Kitchen's products, prior sales, prior disclosures, and prior public uses during prosecution. "Inequitable conduct resides in failure to disclose material information, or submission of false information, with an intent to deceive . . ." *Kingsdown Medical Consultants Ltd. v. Hollister Inc.*, 863 F.2d 867, 872 (Fed. Cir. 1988) (en banc). VV committed inequitable conduct by intentionally failing to disclose Tomorrow's Kitchen's products, sales, disclosures, and public uses—which were prior art—to the USPTO.

61. BigNJ is entitled to a declaratory judgment that the 'D832 Patent is unenforceable.

THIRD CAUSE OF ACTION
Declaratory Judgment of Non-Infringement of the 'D832 Patent
(Against VV)

62. BigNJ incorporates and realleges each and every allegation in the preceding Paragraphs as if fully set forth herein.

63. VV is the owner of the 'D832 Patent.

64. The 'D832 Patent is invalid at least under 35 U.S.C. §§ 102 and 103 in view of the prior art, including but not limited to, Tomorrow's Kitchen's products which were sold, offered for sale, in public use, or disclosed to the public more than one-year before the filing date of the 'D832 Patent. *See* Exhibits B, C, D, E, F.

65. The 'D832 Patent was not filed until November 8, 2017. *See* Exhibit A. The 'D832 Patent is invalid in view of the prior art. “It is axiomatic that one cannot infringe an invalid patent.” *Commil USA, LLC v. Cisco Sys., Inc.*, 720 F.3d 1361, 1368 (Fed. Cir. 2013); *see also Richdel, Inc. v. Sunspool Corp.*, 714 F.2d 1573, 1580 (Fed.Cir.1983) (“The claim being invalid there is nothing to be infringed.”).

66. Because the 'D832 Patent is invalid and should never have issued, there is “nothing to be infringed” and BigNJ is entitled to declaratory judgment that it does not infringe the 'D832 Patent.

FOURTH CAUSE OF ACTION
Tortious Interference
(Against VV and AMZW)

67. BigNJ incorporates and realleges each and every allegation in the preceding Paragraphs as if fully set forth herein.

68. Through BigNJ's Amazon store and its product listings at ASIN B0874SHJFX, B0874S275K, and B0874S11MY, BigNJ had a valid contractual relationship and business expectancy for the sale of its utensil rest products and was selling thousands of dollars in such products on Amazon.

69. On or about May 13, 2023, July 3, 2023, and July 4, 2023, Defendants VV and AMZW asserted the 'D832 Patent in a series of wrongful complaints against BigNJ's Amazon ASINs. *See* Exhibits H, I, J.

70. In order to assert the 'D832 Patent in a complaint against BigNJ's Amazon ASINs, Defendants necessarily had knowledge of those multiple ASINs and of BigNJ's ongoing business relationship with Amazon.

71. In wrongfully asserting the 'D832 Patent in a complaint against BigNJ's Amazon listings, Defendants intended to induce or cause a breach or termination of that relationship by requesting that Amazon remove such listings.

72. The assertion of the 'D832 Patent—*which Defendant VV knew to be invalid*—was an interference for an improper purpose using improper means. In addition, the Defendant AMZW's *refusal* to remove complaints against BigNJ's product listings once it learned the facts that the 'D832 Patent was invalid—was also an interference for an improper purpose using improper means.

73. Defendants VV's and AMZW's wrongful assertion of the 'D832 Patent—and refusal to withdraw such complaints once they learned the 'D832 Patent was invalid—are actions undertaken in bad faith.

74. Because Defendants VV and AMZW knew or learned of the existence of the Tomorrow's Kitchen prior art products—and because the Defendants VV and AMZW thereafter refused to withdraw their Complaints against ASINs B0874SHJFX, B0874S275K, and B0874S11MY, the Defendant's actions were undertaken in bad faith.

75. Before the Defendant's interference with its Amazon listing, BigNJ was selling thousands of dollars of the Accused Products through its product listings at ASINs

B0874SHJFX, B0874S275K, and B0874S11MY. The Defendants' tortious interference with BigNJ's business caused substantial reputational and economic damages through (a) disabled product listing; (b) lost product sales; (c) reputational damage to BigNJ's Amazon account, and (d) other damages to BigNJ's product listing, inventory, and business.

PRAYER FOR RELIEF

Wherefore, BigNJ respectfully prays that the Court enter judgment in its favor and against the Defendants and award the following relief:

A. A judgment in favor of BigNJ and against VV declaring that the 'D832 Patent is invalid.

B. A judgment in favor of BigNJ and against VV declaring that VV engaged in inequitable conduct before the USPTO and that the 'D832 Patent is unenforceable.

C. A judgment in favor of BigNJ and against VV declaring that BigNJ has not and does not infringe the 'D832 Patent.

D. An order and judgment permanently enjoining Defendants VV and AMZW and its officers, directors, employees, agents, licensees, representatives, affiliates, related companies, servants, successors and assigns, and any and all persons acting in privity or in concert with any of them, from further acts of wrongful assertion of the 'D832 Patent.

E. A judgment that this is an exceptional case, pursuant to 35 U.S.C. § 285, together with an award to BigNJ of its costs and reasonable attorneys' fees.

E. A judgment that Defendants VV and AMZW tortiously interfered with BigNJ's contract or business expectancy in the sale of its utensil rest products.

F. A judgment awarding BigNJ all damages sustained by BigNJ and/or all gains, profits, and advantages derived by the Defendants VV and AMZW as a result of their wrongful acts and tortious interference.

G. A judgment awarding BigNJ punitive damages as a result of the Defendants VV's and AMZW's willful and intentional acts of tortious interference.

I. Any other relief the Court deems just and proper under all circumstances.

Demand for Trial by Jury

BigNJ demands a jury trial on all matters triable to a jury.

DEMAND FOR JURY TRIAL

Pursuant to Rule 38(b) of the Federal Rules of Civil Procedure, Plaintiffs demand a jury trial on all matters triable to a jury.

DATED this 18th day of July 2023.

EN During its 30 years of business, International Innovation Company has always been one of the most innovative companies in the housewares industry. This family-owned company has been a trendsetting company since the introduction of its first innovation in 1986: the Vacuum Wine Saver, invented by the founder of the company Bernd Schneider. Today, the second generation of the family is taking the company to the next level by introducing several new initiatives. First of all, a new sales concept will be launched called 'Dutch Creative Brands' including new packaging designs for all existing products and secondly the addition of a new brand called 'Tomorrow's Kitchen', the first step in creating an exciting brand portfolio. International Innovation Company's philosophy is to produce as much as possible within the borders of Europe and at the same time creating jobs for those who need some help in society. Today, over 150 mentally or physically disadvantaged people are involved in the production and assembly of almost every product distributed to over 85 countries in the world either through numerous distributors or our own offices.

NL Gedurende de 30 jaar waarin International Innovation Company actief is, wordt het bedrijf beschouwd als een van de meest innovatieve bedrijven binnen de branche waarin het actief is. Dit familiebedrijf is een ware trendsetter sinds de introductie van de eerste innovatie in 1986: de Vacuum Wine Saver, uitgevonden door oprichter van het bedrijf Bernd Schneider. Vandaag de dag staat de tweede generatie klaar om met het bedrijf de volgende stap te zetten door middel van het introduceren van verschillende initiatieven. Waaronder de lancering van een nieuw verkoopconcept genaamd 'Dutch Creative Brands' in combinatie met een compleet nieuwe verpakkinglijn voor het bestaande assortiment en daarnaast de lancering van het nieuwe merk genaamd 'Tomorrow's Kitchen' dat aan het begin staat van een nieuw merkenportfolio. De filosofie van International Innovation Company is om de productie grotendeels

binnen de grenzen van Europa te faciliteren en daarnaast ook banen te creëren voor diegene binnen de samenleving die dat extra beetje hulp goed kunnen gebruiken. Zo zijn er vandaag de dag meer dan 150 mensen met een geestelijke of lichamelijke beperking betrokken bij de productie en assemblage van bijna elk artikel dat wordt gedistribueerd naar meer dan 85 landen met behulp van eigen kantoren of het wereldwijde kanaal van distributeurs.

DE Seit ihrer mittlerweile 30-jährigen Firmengeschichte ist die International Innovation Company eine der innovativsten Unternehmen ihrer Branche. Das Familienunternehmen ist seit der ersten Neuheit 1986 ein Trendsetter: Die Vakuum Weinpumpe, erfunden vom Firmengründer Bernd Schneider. In der mittlerweile zweiten Generation der Familie wird das Unternehmen zukunftsträchtig ausgerichtet. Unter anderem ergibt sich daraus ein neues Verkaufskonzept genannt 'Dutch Creative Brands' mit neuen Verpackungen der bestehenden Produktpalette, aber auch eine weitere neue Marke entsteht: 'Tomorrow's Kitchen'. Die International Innovation Company ist sehr darauf bedacht, soviel als möglich in Europa zu produzieren und damit hilfsbedürftige Menschen hier zu unterstützen. Aktuell arbeiten über 150 Menschen mit einer Behinderung in unserer Produktion und wir versenden unsere Produkte in über 85 Länder, teils durch eigene Niederlassungen, teils durch Distributoren.

EN International Innovation Company has its own prime time national television show generating thousands of ideas directly based upon consumer experiences. Not all ideas fit the Dutch Creative Brands positioning and distribution channels. Therefore, International Innovation Company is also fully capable of developing products for third parties by offering a complete package from the designing of the products, at no cost, to supplying products anywhere in the world. International Innovation Company can be best described as an idea factory that generates products instead of ideas. It is a one stop shopping experience for companies that want to be innovative in their business, without having to face the difficulties of setting up their own design department or outsourcing without the knowledge of how to set up production.

NL International Innovation Company genereert met zijn eigen nationale televisieshow duizenden ideeën die gebaseerd zijn op de ervaringen van de consument. Niet alle ideeën passen binnen de strategie van Dutch Creative Brands en zijn distributiekanalen. Daarom ontwikkelt International Innovation Company ook producten voor derden door het aanbieden van een compleet pakket van productontwerp, zonder dat daar kosten aan zijn verbonden, tot het leveren van producten overal ter wereld. International Innovation Company kan het best worden beschreven als een ideeënfabriek dat producten genereert in plaats van ideeën.

DE Die International Innovation Company verfügt zu besten Sendezeiten über ihre eigene nationale TV-Show. In Dieser werden tausende Ideen, basierend auf Verbrauchererfahrungen, vorgestellt. Nicht alle dieser Ideen passen zu den Vertriebskanälen von Dutch Creative Brands. Hierfür entwickelt die International Innovation Company für weitere Unternehmen indem ein vollständiges Gesamtpaket von Designerstellung bis hin zum fertigen Produkt. Die International Innovation Company kann als Ideenwerkstatt welche Produkte entwickelt und produziert und nicht nur als Ideengeber gesehen werden. Es ist wie „alles aus einer Hand“ für innovative Firmen, die sich nicht um Entwicklung und Produktion sowie viele

weitere zeitraubende Details wie das Bilden eines eigenen Designteams, kümmern möchten.

EN The core family values on social responsibility have been put to life in IIC's production partner 'Voor Elkaar', which is also part of International Innovation Company. 'Voor Elkaar' is the Dutch translation of 'For Each Other' and also means 'Accomplished'. As the name suggests, the focus of this company is to 'accomplish' the production and assembly of high-level quality products, and at the same time helping people that need help getting back into the working society. This way they can recover their self-esteem and be of great value, something we believe our society should do 'For Each Other'. Production is not limited to affiliated companies but is also suitable for interested third parties from different lines of business.

The importance of social responsibility is not only bound to the Dutch society, as IIC is also the founder of the 'Sharing Success Foundation'. This foundation guarantees that 100% of the donations received, from entrepreneurs willing to share their success, are being spent wisely in cooperation with the Liliane Foundation. Today, the foundation has helped over 50.000 disabled children and has realized many useful facilities in developing countries.

NL De familiale kernwaarden op het gebied van sociale verantwoordelijkheid komen tot leven in de productiepartner 'Voor Elkaar', wat eveneens onderdeel is van International Innovation Company. 'Voor Elkaar' slaat zowel op het klaarstaan voor een ander als op iets succesvol volbrengen. Zoals de naam weergeeft, is het belangrijk dat productie en assemblage van kwaliteitsproducten, tezamen met het bieden van hulp bij de terugkeer binnen de werkmaatschappij, succesvol wordt volbracht. Dit initiatief is bedoeld om werknemers hun zelfvertrouwen te laten herwinnen en het gevoel van toegevoegde waarde te geven, iets dat onze maatschappij moet doen 'Voor Elkaar'. De productie is niet gelimiteerd tot gelieerde ondernemingen, maar eveneens beschikbaar voor geïnteresseerde bedrijven actief in andere branches.

Het belang van maatschappelijk verantwoord ondernemen is niet alleen gebonden aan de Nederlandse samenleving, daar IIC ook eveneens oprichter is van stichting 'Sharing Success'. Deze stichting garandeert dat 100% van haar gegeneerde inkomsten, afkomstig van ondernemers die hun succes willen delen, in samenwerking met het Lilianegoed op de juiste plek terechtkomt. Vandaag de dag heeft de stichting meer dan 50.000 kinderen met een beperking geholpen tezamen met de realisatie van noodzakelijke voorzieningen in ontwikkelingslanden.

DE Die Kernwerte der Familie im Bereich sozialer Verantwortung werden durch IIC's Produktionspartner ebenfalls gelebt. Dies wird in Holland 'Voor Elkaar' genannt und trifft ebenfalls auf die Familie zu. 'Voor Elkaar' bedeutet 'Für einander' und zwar 'vollständig'. Wie der Name sagt, ist der Fokus des Unternehmens vollständig auf die Produktion und Entwicklung hochwertiger Produkte ausgerichtet. Zeitgleich wird körperlich beeinträchtigt Menschen die Möglichkeit gegeben, am Leben durch Arbeit und sozialer Zugehörigkeit teilzunehmen und sie zu integrieren; Wir glauben, etwas, was Alle in unserer Gesellschaft tun sollten. Dieses Unternehmen arbeitet für Firmen aus jeder Branche und nicht nur für mit der Branche verbundenen Firmen. Die Wichtigkeit und Bedeutung der sozialen Verantwortung ist nicht nur in den Niederlanden ein Thema. IIC ist der Gründer der 'Sharing Success Foundation'. Diese gemeinnützige Stiftung garantiert, dass 100 % der Spenden aus Wirtschaft und Privat Spendern in Kooperation mit der Liliane Foundation sinnvoll eingesetzt werden. Bis heute hat die Stiftung über 50.000 behinderten Kindern zu einem besseren Leben verholfen sowie in einigen Entwicklungsländern gemeinnützige Einrichtungen realisiert.

EN The new sales approach 'Dutch Creative Brands' has a clear focus on several core values of the company. International Innovation Company is a Dutch company with creativity being one of the key success factors in its 30 years of existence. The new approach is part of a repositioning of the existing Vacu Vin brand as the leading supplier of wine and bar accessories. The well-established Vacu Vin brand name will be used for a complete range of essential items that enable consumers and professionals to enjoy wine and cocktails. As a result of this new approach the total product assortment has grown over 30%! This allows the company to offer a complete range that suits the needs of every customer the company supplies. From high-level department stores to mass-market supermarkets and everything in between, the Vacu Vin brand is able to offer appropriate items that fit its customer's retail strategies.

DE Firma und unsere Kreativität ist einer der Erfolgsfaktoren unserer 30-jährigen Firmengeschichte. Das neue Verkaufsargument ist Teil einer Veränderung der existierenden Marke Vacu Vin als Marktführer in Wein- und Baraccessoires. Der populäre Markenname Vacu Vin wird künftig für eine vollständige Produktlinie, bestehend aus Wein- und Baraccessoires für den Haus- und professionellen Gebrauch, genutzt. Im Ergebnis wächst das Sortiment in diesem Bereich um über 30 % und bietet alle benötigten Produkte an. Vom Fach Einzelhandel bis hin zum Supermarkt und Allen dazwischen bietet Vacu Vin passende Produkte für jeden Verbraucher und eine optimale Strategielösung für den Händler an. Innovative Produkte zu produzieren wird stets der Fokus von Vacu Vin sein.

NL Het nieuwe verkoopconcept 'Dutch Creative Brands' heeft een heldere visie op verschillende kernwaarden van het bedrijf. International Innovation Company is een Nederlands bedrijf met creativiteit als een van de succesfactoren in het 30-jarig bestaan. Deze nieuwe aanpak is onderdeel van de herpositionering van het merk Vacu Vin als toonaangevende leverancier van wijn- en baraccessoires. De sterk gevestigde merknaam Vacu Vin zal gebruikt worden voor een complete reeks met essentiële items die het een ieder mogelijk maakt om te kunnen genieten van wijn en cocktails. Als gevolg van deze nieuwe aanpak is het assortiment gegroeid met meer dan 30%! Deze groei maakt het mogelijk om met een complete lijn baraccessoires te voorzien in de behoefte van elke klant waaraan het bedrijf levert. Van exclusieve warenhuizen tot supermarkten toegankelijk voor het grote publiek en alles daartussenin. Het merk Vacu Vin is in staat om een assortiment te bieden dat aansluit bij de retailstrategie van zijn klanten.

Unser neues Verkaufsargument 'Dutch Creative Brands' fokussiert einige unserer Grundwerte. International Innovation Company ist eine holländische

EN Besides the existing Vacu Vin brand, International Innovation Company has also launched a new brand called 'Tomorrows Kitchen'. This new brand will focus exclusively on innovative kitchen items that can be used during the preparation of foods, but also allow consumers to enjoy themselves at the dining table. The word 'Tomorrow' has a double meaning. It is expressing the innovative character of the products as well as the company's social values in which high value is being given to our future responsibility to society.

Both brands belonging to the 'Dutch Creative Brands' concept have a constant stream of new innovations coming up. An in-house design team is constantly working on tomorrow's gadgets with a focus on functionality and at the same time bringing a smile to the user's face. Offering these unique innovations will always be the core focus of Dutch Creative Brands.

NL Naast het huidige merk Vacu Vin, lanceert International Innovation Company een nieuw merk genaamd 'Tomorrow's Kitchen'. Dit nieuwe merk zal zich richten op innovatieve keukensitems die toegepast kunnen worden zowel tijdens het prepareren van eten, als tijdens het serveren op de eettafel. De naam 'Tomorrow' heeft een dubbele betekenis. Het benadrukt zowel het innovatieve karakter van het merk als de sociale waarden waar het bedrijf veel waarde hecht aan de toekomstige verantwoordelijkheid naar de samenleving toe.

Beide merken die toebehoren aan het 'Dutch Creative Brands' concept, hebben een constante stroom van nieuwe productinnovaties. Een intern gefaciliteerd team van designers is voortdurend aan het werk om de gadgets van morgen te ontwikkelen met de focus op zowel functionaliteit als het bezorgen van een glimlach op het gezicht van de eindgebruiker. Het aanbieden van deze unieke innovaties loopt als een rode draad door de visie van 'Dutch Creative Brands'.

DE Neben der existierenden Marke Vacu Vin führen wir künftig die neue Marke 'Tomorrow's Kitchen'. Diese neue Marke fokussiert sich exklusiv auf innovative Küchenhelfer und Produkte rund um den gedeckten Tisch. Das Wort 'Tomorrow' in dem Markennamen hat eine Doppelbedeutung. Als Erstes unterstreicht es den innovativen und zukunftssträchtigen Charakter; als Zweites drückt es unsere auch zukünftig weiter wachsende soziale Verantwortung aus.

Beide Marken gehören zum 'Dutch Creative Brands' Konzept und profitieren von der konstanten Innovationskraft sowie zukünftiger Produkte. Das hauseigene Designteam sorgt mit seiner stetigen Arbeit an neuen Produkten und Fokus auf Funktionalität für diese Innovationskraft.

“Offering these unique innovations and store concepts will always be the core focus of DCB”

Coconut Opener

Article number: 4653560
 EAN Code: 8714793 465334
 UPC Code: 084256 465330

Units/Case: 6
 Gross weight: 1,30 kg
 (outer case) 2,87 lbs
 Dimensions: 32,6 x 9,8 x 9,2 cm
 (outer case) 12,83 x 3,86 x 3,62 inch

EN With the Coconut Opener you can easily prepare a coconut. First puncture the soft 'eye' and pour out the coconut liquid into a glass. Then simply hit the coconut several times while turning it. The Coconut Opener will easily divide the coconut into equal halves which then allows easy access to the coconut flesh. Bring an exotic holiday experience into your home with this smart product.

NL Met de Coconut Opener kun je nu gemakkelijk een kokosnoot klaarmaken. Perforeer het "zachte" oog van de kokosnoot en schenk de vloeistof in een glas. Sla vervolgens meerdere malen op de kokosnoot terwijl u de kokosnoot draait. De Coconut Opener verdeelt een kokosnoot gemakkelijk in twee gelijke helften en zorgt ervoor dat u gemakkelijk bij het vruchtvlies kan. Breng het gevoel van een tropische bestemming in huis met de slim vormgegeven Coconut Opener.

DE Mit dem Kokosnussöffner wird das Öffnen der Kokosnuss zum Kinderspiel. Um an die leckere Kokosmilch zu gelangen, stechen Sie zuerst mit dem kleinen Dorn in das weiche „Auge“ der Kokosnuss und lassen die Milch in ein Glas fließen. Dann bearbeiten Sie die Längsseite der Kokosnuss in dem Sie mit der Metallseite des Öffners kräftig auf die Schale schlagen und die Kokosnuss dabei in der Hand drehen. Die Kokosnuss wird dadurch in 2 gleiche Teile geteilt und dem Genuss des gesunden „Fleisches“ steht nichts mehr im Weg.

EN A mortar is a useful kitchen tool for grinding and mixing various rough herbs and spices. With this tool you can easily make your own spice mixes and use them as a starting point for a delicious sauce, soup or marinade. The robust white ceramic mortar offers a sturdy base for the wooden pestle. The ceramic mortar base can be used on both sides to always provide the appropriate size! The mortar can easily be stored free of dust by turning the broadest side down and put the pestle upright into the small mortar base.

- Diameter mortar 100 and 54 mm
- Dust free storage

NL Een vijzel is een handig hulpmiddel bij het malen en mengen van diverse grove kruiden en specerijen. Hierdoor maak je gemakkelijk je eigen kruidenmengsels als basis voor een lekkere saus, soep of marinade. De vijzel van robuust wit keramiek biedt een stevige basis voor de houten stamper. De vijzelbasis is aan beide zijden te gebruiken, zodat je altijd het geschikte formaat vijzel beschikbaar hebt. De vijzel kan gemakkelijk stofvrij opgeborgen worden door de brede kant naar beneden te draaien en de stamper rechtop te zetten in de kleine vijzelkom.

EN No more lost nutrition or flavor with the Single Serve Steamer from Tomorrow's Kitchen. The solid tempered glass bowl is designed to steam a one person dinner or to steam individual portions of vegetables or even meat, fish and poultry. Its shape allows combining four steaming bowls together in standard size microwaves. The smart lid allows you to take the bowl from the microwave despite the glass being hot. Simply drain the remaining water by lifting the lid into draining position. A timesaver that steams your ingredients in no-time!

NL Vitamines en smaak gaan niet langer verloren met de Single Serve Steamer van Tomorrow's Kitchen. De stevig gehard glazen schaal is ontworpen om een enkele maaltijd te stomen of om individuele porties groentes, vlees, vis en gevogelte te stomen. De vorm maakt het mogelijk om vier stoomschaltjes te combineren in de meest gebruikte magnetrons. De slimme deksel zorgt ervoor dat, ondanks de warmte van het glas, de schaal veilig uit de magnetron kan worden genomen. Giet het overgebleven water gemakkelijk af door de deksel in vergietstand te zetten. Bespaart tijd en stoomt je ingrediënten in no-time, ideaal voor een drukke en gezonde levensstijl!

EN The Instant Marinater is a unique dish that marinates and tenderizes meat, fish, chicken and vegetables in just minutes. It works by creating a vacuum which opens up the pores and fibers of the meat allowing for a deep and instant marinade! This process also tenderizes the food. Marinating foods adds delicious flavors.

NL De Instant Marinater is een uniek concept dat uw vlees, kip, of groente sneller marineert en malser maakt. De werking is gebaseerd op het creëren van vacuüm, waardoor de poriën van het vlees worden geopend en de marinade sneller opgenomen wordt. Als gevolg van het marinieren worden heerlijke smaken aan uw voedsel toegevoegd.

DE Der Instant Marinater ist ein einmaliges Konzept, das Ihr Fleisch, Huhn oder Gemüse schneller mariniert und zarter macht. Der Effekt beruht auf der Schaffung von Vakuum, wodurch die Poren des Fleisches geöffnet werden und die Marinade rascher aufgenommen wird. Als Folge der Marinierung bekommen Ihre Lebensmittel einen herrlichen Geschmack.

VACUUM STORAGE CONTAINERS

EN When foods, coffee or tea are exposed to the air they quickly deteriorate, affecting taste, flavour and crispness. The large capacity vacuum pump extracts the air from the Vacuum Storage Container, creating a vacuum, which optimises storage conditions.

NL Wanneer voedsel, koffie of thee wordt blootgesteld aan lucht, zal de kwaliteit snel achteruit gaan. Smaak, aroma en versheid van de producten kunnen worden aangetast. De grotere vacuümpomp verwijdert de lucht uit de vacuüm bewaarbus, zodat het gecreëerde vacuüm een optimale bewaarconditie vormt.

DE Wenn Lebensmittel, Kaffee oder Tee der Luft ausgesetzt sind, verschlechtern sie sich schnell und beeinflussen Geschmack, Aroma und Frische. Die Vakuumpumpe mit größerer Kapazität, befördert die Luft aus dem Vakuumbehälter und schafft dadurch ein Vakuum, welches die Lagerbedingungen optimiert.

POPSOME DISPENSERS

EN The PopSome products are practical dispensers for items such as nuts, candy, rice, sugar, herbs and other food. The brightly colored lid and the patented Oxiloc system are specifically designed to ensure that the bowl remains airtight. If you pull up the flexible lid with a "pop", a useful opening appears which makes it possible to simply dose the contents. The dispenser is also designed to retain items within the bowl should it be knocked over.

NL De PopSome producten zijn handige dispensers voor bijvoorbeeld nootjes, snoepjes, rijst, suiker, kruiden of andere levensmiddelen. De vrolijk gekleurde deksel en het gepatenteerde Oxiloc systeem zijn speciaal ontworpen om het bakje luchtdicht af te kunnen sluiten. Als u de flexibele deksel met een "pop" opentrekt ontstaat er een handige opening waardoor u de inhoud gemakkelijk kunt doseren. Als de dispenser per ongeluk omvalt zal de inhoud er niet snel uitrollen.

DE Der Snack-Spender "PopSome" ist ein praktischer Spender für Snacks wie Nüsse, Reis, Zucker, Kräuter oder andere Lebensmittel. Der farbenfrohe Deckel und das patentierte Oxiloc Schließsystem wurde eigens zur Abdichtung der Schale und Frischhaltung entwickelt. Wenn Sie den flexiblen Deckel mit einem Ruck hochziehen, kann der Inhalt leicht dosiert durch die Öffnung fließen. Die Spender ist auch zum sicheren Aufbewahren gegen Um- oder Herunterfallen entwickelt worden.

EN Keep your countertop clean during cooking with the Utensil Rest. This smart kitchen help is made from non-slip silicone and is designed to let your utensils rest during cooking without having to clean your countertop. The large notches offer place for up to four cooking utensils and are also suitable to keep your spring tongs in place. The raised edges prevent cooking fluid from leaking onto your countertop.

NL Houd je aanrecht schoon tijdens het koken met behulp van de Utensil Rest. Deze slimme keukenhulp is gemaakt van een antislip siliconen en is ontworpen om je kookgerei gedurende het koken te ondersteunen zonder dat het aanrecht schoon gemaakt hoeft te worden. De grote inkepingen bieden ruimte aan vier verschillende kookgerei en houden tevens een geveerde keukentang op zijn plaats. De opgezette randen zorgen ervoor dat kookvloeistoffen niet op het aanrecht lekken.

DE Halten Sie Ihre Arbeitsplatte mit der Utensil-Ablage sauber. Dieser kleine Küchenhelfer ist aus rutschfestem Silikon hergestellt und so entwickelt, dass er die perfekte Ablage für Küchenhelfer darstellt ohne die Arbeitsplatte zu verschmutzen. Die großen Kerben schaffen Platz für bis zu vier Küchenhelfern und halten ebenfalls Küchenzangen zusammen. Durch den erhöhten Rand bleiben Flüssigkeiten auf der Ablage und laufen nicht auf die Arbeitsfläche.

We first saw, and bought, one of these in Super U, in Tregastel, Brittany in September - so were really pleased when we found them on Amazon's website - bought two for the family! Any mess from utensils, all in one place not scattered all over the worktop! Every home should one!

Comodissimo come poggiamestolo mente si cucina, regge qualsiasi tipo di utensile dal cucchiolo di legno alla schiumarola e raccoglie tutto lo sporco per poi essere comodamente lavato in lavastoviglie. Certo non è bello da vedere come uno di design in ceramica, ma non tornerei mai indietro. Anzi, sto pensando di acquistarne altri per utilizzarli nei cassetti delle posate come suggerito nelle foto. Straconsigliato!

★★★★☆ **Potrebbe essere migliorabile**

Reviewed in Italy on 8 December 2020

Verified Purchase

L'oggetto corrisponde a foto e descrizione del venditore. Invece di usare il solito porta mestoli in ceramica questo consente di appoggiare separatamente i vari attrezzi mentre si cucina. Il silicone mi sembra di buona qualità, inodore e facile da pulire. Quando dico che potrebbe essere migliorabile intendo che un paio di cm in più in lunghezza sarebbero apprezzabili. Consegna Amazon Prime perfetta e puntuale.

Jeder Hobbykoch und jede Hausfrau kennt das: bei den Kochexzessen hat man immer ein paar Löffel, Schöpfer oder Schneebesen rumliegen, die einem die Arbeitsplatte vollsauen. Mit diesem praktischen Unterleg-Pad ist das Problem gelöst. Leicht ist es auch mal verschoben und auf dem Induktionsherd darf es auch mal zwischen den Kochfeldern liegen. Schnell ist es abgewaschen oder hinterher in der Spülmaschine gereinigt. Für mich einfach wunderbar!

Sicher auch ein schönes Mitbringsel: Keiner hat's und jeder kann's gebrauchen.

★★★★★ **Tolle Idee**

Reviewed in Germany on 24 July 2017

Verified Purchase

Die Silikonmatte hat Platz für 4 Küchenhelfer. Sie ist sehr leicht zu reinigen und absolut rutschfest!

Holzkochlöffel und kleinere Küchenutensilien passen perfekt drauf.... größere leider (jedenfalls bei mir) nicht.

Die Matte ist 14 x 14 cm.

Wenn man den Kochlöffel, Schneebesen etc.. nun in die Rillen ablegt beträgt die Fläche der vorderen Ablage noch 9 cm.

Für große Schneebesen oder z.B. mein gr. Kochlöffel von Le Creuset.... geht über die 9 cm raus und würde somit die Arbeitsfläche verschmieren.

Auch sind meine Griffe zu dick um in die Rillen zu passen.

Dennoch... bin ich mit dieser Matte zufrieden, kann sie empfehlen und habe sie in Gebrauch.

Man kann sich ja selbst ausmessen wie groß seine eigenen Kochutensilien sind und ob man damit selbst klar kommt.

- Question:** Will it hold a lid? I saw one on FB where you can rest the lid on the "short" side of the holder.

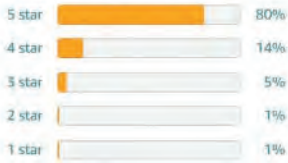

Answer: only in theory, or maybe if its a small lid. Holder should be larger.

I always used to get a saucer out to hold all the utensils. This is so nice because it holds more utensils than the saucer did, and it keeps them organized so the raw meat fork isn't touching the rest of the utensils. I LOVE IT! I put it on the top rack of the dishwasher, and it comes out perfect every time. I'm thinking about gifting this.....

 I always used to get a saucer out to hold all the utensils. This is so nice because it holds more utensils than the saucer did, and it keeps them organized so the raw meat fork isn't touching the rest of the utensils. I LOVE IT! I put it on the top rack of the dishwasher, and it comes out perfect every time. I'm thinking about gifting this.....

This is easy to clean and use. It holds my utensils well and keeps them off the counter and keeps the counter clean. I can pick it up with my utensil to move to another counter as needed as well. Gifted one to mom at Christmas too.

OMB Clearance and PRA Burden Statement for PTOL-85 Part B

The Paperwork Reduction Act (PRA) of 1995 requires Federal agencies to obtain Office of Management and Budget approval before requesting most types of information from the public. When OMB approves an agency request to collect information from the public, OMB (i) provides a valid OMB Control Number and expiration date for the agency to display on the instrument that will be used to collect the information and (ii) requires the agency to inform the public about the OMB Control Number's legal significance in accordance with 5 CFR 1320.5(b).

The information collected by PTOL-85 Part B is required by 37 CFR 1.311. The information is required to obtain or retain a benefit by the public which is to file (and by the USPTO to process) an application. Confidentiality is governed by 35 U.S.C. 122 and 37 CFR 1.14. This collection is estimated to take 30 minutes to complete, including gathering, preparing, and submitting the completed application form to the USPTO. Time will vary depending upon the individual case. Any comments on the amount of time you require to complete this form and/or suggestions for reducing this burden, should be sent to the Chief Information Officer, U.S. Patent and Trademark Office, U.S. Department of Commerce, P.O. Box 1450, Alexandria, Virginia 22313-1450. DO NOT SEND FEES OR COMPLETED FORMS TO THIS ADDRESS. SEND TO: Commissioner for Patents, P.O. Box 1450, Alexandria, Virginia 22313-1450. Under the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number.

Privacy Act Statement

The **Privacy Act of 1974 (P.L. 93-579)** requires that you be given certain information in connection with your submission of the attached form related to a patent application or patent. Accordingly, pursuant to the requirements of the Act, please be advised that: (1) the general authority for the collection of this information is 35 U.S.C. 2(b)(2); (2) furnishing of the information solicited is voluntary; and (3) the principal purpose for which the information is used by the U.S. Patent and Trademark Office is to process and/or examine your submission related to a patent application or patent. If you do not furnish the requested information, the U.S. Patent and Trademark Office may not be able to process and/or examine your submission, which may result in termination of proceedings or abandonment of the application or expiration of the patent.

The information provided by you in this form will be subject to the following routine uses:

1. The information on this form will be treated confidentially to the extent allowed under the Freedom of Information Act (5 U.S.C. 552) and the Privacy Act (5 U.S.C. 552a). Records from this system of records may be disclosed to the Department of Justice to determine whether disclosure of these records is required by the Freedom of Information Act.
2. A record from this system of records may be disclosed, as a routine use, in the course of presenting evidence to a court, magistrate, or administrative tribunal, including disclosures to opposing counsel in the course of settlement negotiations.
3. A record in this system of records may be disclosed, as a routine use, to a Member of Congress submitting a request involving an individual, to whom the record pertains, when the individual has requested assistance from the Member with respect to the subject matter of the record.
4. A record in this system of records may be disclosed, as a routine use, to a contractor of the Agency having need for the information in order to perform a contract. Recipients of information shall be required to comply with the requirements of the Privacy Act of 1974, as amended, pursuant to 5 U.S.C. 552a(m).
5. A record related to an International Application filed under the Patent Cooperation Treaty in this system of records may be disclosed, as a routine use, to the International Bureau of the World Intellectual Property Organization, pursuant to the Patent Cooperation Treaty.
6. A record in this system of records may be disclosed, as a routine use, to another federal agency for purposes of National Security review (35 U.S.C. 181) and for review pursuant to the Atomic Energy Act (42 U.S.C. 218(c)).
7. A record from this system of records may be disclosed, as a routine use, to the Administrator, General Services, or his/her designee, during an inspection of records conducted by GSA as part of that agency's responsibility to recommend improvements in records management practices and programs, under authority of 44 U.S.C. 2904 and 2906. Such disclosure shall be made in accordance with the GSA regulations governing inspection of records for this purpose, and any other relevant (i.e., GSA or Commerce) directive. Such disclosure shall not be used to make determinations about individuals.
8. A record from this system of records may be disclosed, as a routine use, to the public after either publication of the application pursuant to 35 U.S.C. 122(b) or issuance of a patent pursuant to 35 U.S.C. 151. Further, a record may be disclosed, subject to the limitations of 37 CFR 1.14, as a routine use, to the public if the record was filed in an application which became abandoned or in which the proceedings were terminated and which application is referenced by either a published application, an application open to public inspection or an issued patent.
9. A record from this system of records may be disclosed, as a routine use, to a Federal, State, or local law enforcement agency, if the USPTO becomes aware of a violation or potential violation of law or regulation.

DECISION ON PETITION

CORRECTED DECISION¹

This is a decision on the renewed petition filed February 28, 2020, under 37 CFR 1.137(a)², to revive the above-identified application.

The petition is GRANTED.

This application became abandoned July 16, 2019 for failure to timely pay the issue fee in response to the Notice of Allowance Mailed April 15, 2019, and to submit a properly executed inventor's oath or declaration in response to the Notice Requiring Inventor's Oath or Declaration mailed June 25, 2019. Accordingly, a Notice of Abandonment was mailed July 31, 2019. A petition to revive was filed August 20, 2019 but was not filed with the total required for the petition fee, a properly signed oath or declaration or a terminal disclaimer. The petition was dismissed in a decision mailed December 30, 2019.

Thereafter, on January 27, 2020, a request under 37 CFR 1.48(d) was submitted to correct the inventorship and was accepted as evidenced by the corrected filing receipt mailed February 5, 2020.

Comes now petitioner with the instant renewed petition with the balance of the fees due for the issue fee and a Terminal Disclaimer and fee.

All other requirements of 37 CFR 1.137(a) having now been met including the terminal disclaimer and the required fee, this matter is being referred to the Publishing Division.

¹The decision mailed March 31, 2020 is hereby vacated and replaced with this decision.

²Effective December 18, 2013, a grantable petition under 37 CFR 1.137(a) must be accompanied by: (1) the required reply, unless previously filed; (2) the petition fee as set forth in 37 CFR 1.17(m); (3) any terminal disclaimer (and fee as set forth in 37 CFR 1.20(d)) required by 37 CFR 1.137(d) and (4) a statement that the entire delay in filing the required reply from the due date for the reply until the filing of a grantable petition pursuant to 37 CFR 1.137(a) was unintentional; and . Where there is a question as to whether either the abandonment or the delay in filing a petition under 37 CFR 1.137 was unintentional, the Director may require additional information. See MPEP 711.03(c)(II)(C) and (D).

 For: UTENSIL REST

DECISION ON PETITION

This is a decision on the renewed petition filed February 28, 2020, under 37 CFR 1.137(a)¹, to revive the above-identified application.

The petition is DISMISSED.

Any request for reconsideration of this decision must be submitted within TWO (2) MONTHS from the mail date of this decision. Extensions of time under 37 CFR 1.136(a) are permitted. The reconsideration request should include a cover letter entitled "Renewed Petition under 37 CFR 1.137(a)." This is not a final agency action within the meaning of 5 U.S.C. § 704.

This application became abandoned July 16, 2019 for failure to timely pay the issue fee in response to the Notice of Allowance Mailed April 15, 2019, and to submit a properly executed inventor's oath or declaration in response to the Notice Requiring Inventor's Oath or Declaration mailed June 25, 2019. Accordingly, a Notice of Abandonment was mailed July 31, 2019. A petition to revive was filed August 20, 2019 but was not filed with the total required for the petition fee, a properly signed oath or declaration or a terminal disclaimer. The petition was dismissed in a decision mailed December 30, 2019.

Thereafter, on January 27, 2020, a request under 37 CFR 1.48(d) was submitted to correct the inventorship and was accepted as evidenced by the corrected filing receipt mailed February 5, 2020.

¹Effective December 18, 2013, a grantable petition under 37 CFR 1.137(a) must be accompanied by: (1) the required reply, unless previously filed; (2) the petition fee as set forth in 37 CFR 1.17(m); (3) any terminal disclaimer (and fee as set forth in 37 CFR 1.20(d)) required by 37 CFR 1.137(d) and (4) a statement that the entire delay in filing the required reply from the due date for the reply until the filing of a grantable petition pursuant to 37 CFR 1.137(a) was unintentional; and . Where there is a question as to whether either the abandonment or the delay in filing a petition under 37 CFR 1.137 was unintentional, the Director may require additional information. See MPEP 711.03(c)(II)(C) and (D).

However, Rule 37 CFR 1.312 prohibits amendments after the payment of an issue fee. Therefore, as the request for correction of inventorship is an amendment, a petition to withdraw the application from issue pursuant to 37 CFR 1.313 and an express abandonment in favor of a Continued Prosecution Application (CPA) since this is a design application, was required for treatment of the request under 37 CFR 1.48(d).

While the renewed petition has been filed with the balance of the petition fee and a Terminal Disclaimer, the petition is not grantable without the petition to withdraw the application from issue pursuant to 37 CFR 1.313 and an express abandonment in favor of a Continued Prosecution Application (CPA).

The application will therefore remain in an abandoned status until such time as a grantable petition to revive under 37 CFR 1.137(a) has been filed, including a re-filed Terminal Disclaimer because in view of the dismissal of this petition, the Terminal Disclaimer filed with the instant petition will be disapproved.

Petitioner should note that submission of any renewed petition without the required reply will be construed as intentional delay.

Dear Commissioner:

In response to the Decision of Petition dated December 30, 2019 in the above-captioned application, please be advised that the Petition is hereby renewed to address the deficiencies cited in the Decision of Petition:

1. On August 20, 2019, a Petition for Revival of Application for Patent Abandoned Unintentionally was filed requesting that Application No. 29/625,265 be revived after the application was abandoned for inadvertently failing to pay the Issue Fee.
2. As set forth in the initial Petition and Statement in support thereof, the delay for the payment of the Issue Fee was entirely unintentional and not in any way the fault of the

applicant, and revival of the application and acceptance of the Issue Fee would serve the interests of fairness and justice. The reasons for the delay, as set forth in the Statement in support of the original Petition, are as follows:

- a. Patent attorney Joseph Englander was a patent attorney at the undersigned's law firm, and was previously attorney of record for this application. Mr. Englander left the law firm to join another firm and accordingly updated the contact information associated with his customer number. After leaving the undersigned's law firm, Mr. Englander no longer represented the applicants.
- b. A Notice of Allowance was issued by the USPTO on April 15, 2019. Because the Notice of Allowance was forwarded to Mr. Englander's new law firm, the undersigned and the applicant did not receive and were not aware of the Notice of Allowance.
- c. On August 2, 2019, Mr. Englander forwarded to the undersigned the Notice of Abandonment for failure to pay the Issue Fee by the deadline.
3. On December 30, 2019, a Decision on Petition was issued noting deficiencies in the original Petition, including that (1) the full Issue Fee was not included with the Petition, (2) a Terminal Disclaimer was not submitted with the Petition as required by 37 CFR 1.321, and (3) the correction of the name of the first-named inventor must be completed before the Issue Fee is paid.
4. This Renewed Petition is submitted to address those deficiencies.
5. In order to cure the deficiencies cited in the Decision on Petition, the following is hereby submitted together with this Renewed Petition:

- a. A Terminal Disclaimer pursuant to 37 CFR 1.321, together with payment of the required \$160 fee pursuant to 37 CFR 1.20(d); and
 - b. Payment of the remaining \$300 balance owed for the Issue Fee.
6. Moreover, the correction of the first-named inventor's name was submitted and accepted prior to submitting this Renewed Petition and prior to paying the Issue Fee.
7. Accordingly, the undersigned respectfully requests that the Renewed Petition be granted, that the application be revived, that the USPTO accept the Terminal Disclaimer and remaining \$300 outstanding balance of the Issue Fee, and that a patent thereafter be granted.

Dear Ms. Faison-Ball:

This firm represents the Applicant in the above-referenced application for a design patent. Pursuant to the USPTO's Decision on Petition entered on December 30, 2019, this cover letter along with its enclosures, shall serve as the applicant's Renewed Petition for Revival of Application for Patent Abandonment Unintentionally Under 37 CFR 1.137(a).

To address the deficiencies cited in the Decision on Petition, the Applicant hereby submits the following:

1. Statement in Support of Renewed Petition for Revival of Application for Patent Abandonment Unintentionally Under 37 CFR 1.137(a);
2. Terminal Disclaimer to Accompany Petition Under 37 CFR 1.137 in Design Application;
3. Credit Card Payment Form for \$160 representing the fee required for the terminal disclaimer; and
4. Credit Card Payment Form for \$300 representing the outstanding balance for the Issue Fee.

If you have any questions or concerns, please do not hesitate to contact me, and thank you for your consideration of this matter.

Sincerely,

PROTECTING YOUR INVENTION OUTSIDE THE UNITED STATES

Since the rights granted by a U.S. patent extend only throughout the territory of the United States and have no effect in a foreign country, an inventor who wishes patent protection in another country must apply for a patent in a specific country or in regional patent offices. Applicants may wish to consider the filing of an international application under the Patent Cooperation Treaty (PCT). An international (PCT) application generally has the same effect as a regular national patent application in each PCT-member country. The PCT process **simplifies** the filing of patent applications on the same invention in member countries, but **does not result** in a grant of "an international patent" and does not eliminate the need of applicants to file additional documents and fees in countries where patent protection is desired.

Almost every country has its own patent law, and a person desiring a patent in a particular country must make an application for patent in that country in accordance with its particular laws. Since the laws of many countries differ in various respects from the patent law of the United States, applicants are advised to seek guidance from specific foreign countries to ensure that patent rights are not lost prematurely.

Applicants also are advised that in the case of inventions made in the United States, the Director of the USPTO must issue a license before applicants can apply for a patent in a foreign country. The filing of a U.S. patent application serves as a request for a foreign filing license. The application's filing receipt contains further information and guidance as to the status of applicant's license for foreign filing.

Applicants may wish to consult the USPTO booklet, "General Information Concerning Patents" (specifically, the section entitled "Treaties and Foreign Patents") for more information on timeframes and deadlines for filing foreign patent applications. The guide is available either by contacting the USPTO Contact Center at 800-786-9199, or it can be viewed on the USPTO website at <http://www.uspto.gov/web/offices/pac/doc/general/index.html>.

For information on preventing theft of your intellectual property (patents, trademarks and copyrights), you may wish to consult the U.S. Government website, <http://www.stopfakes.gov>. Part of a Department of Commerce initiative, this website includes self-help "toolkits" giving innovators guidance on how to protect intellectual property in specific countries such as China, Korea and Mexico. For questions regarding patent enforcement issues, applicants may call the U.S. Government hotline at 1-866-999-HALT (1-866-999-4258).

LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Bureau of Industry and Security, Department of Commerce (15 CFR parts 730-774); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

Authorization or Opt-Out of Authorization to Permit Access:

When this Application Data Sheet is properly signed and filed with the application, applicant has provided written authority to permit a participating foreign intellectual property (IP) office access to the instant application-as-filed (see paragraph A in subsection 1 below) and the European Patent Office (EPO) access to any search results from the instant application (see paragraph B in subsection 1 below).

Should applicant choose not to provide an authorization identified in subsection 1 below, applicant must opt-out of the authorization by checking the corresponding box A or B or both in subsection 2 below.

NOTE: This section of the Application Data Sheet is ONLY reviewed and processed with the INITIAL filing of an application. After the initial filing of an application, an Application Data Sheet cannot be used to provide or rescind authorization for access by a foreign IP office(s). Instead, Form PTO/SB/39 or PTO/SB/69 must be used as appropriate.

1. Authorization to Permit Access by a Foreign Intellectual Property Office(s)

A. Priority Document Exchange (PDX) - Unless box A in subsection 2 (opt-out of authorization) is checked, the undersigned hereby grants the USPTO authority to provide the European Patent Office (EPO), the Japan Patent Office (JPO), the Korean Intellectual Property Office (KIPO), the State Intellectual Property Office of the People's Republic of China (SIPO), the World Intellectual Property Organization (WIPO), and any other foreign intellectual property office participating with the USPTO in a bilateral or multilateral priority document exchange agreement in which a foreign application claiming priority to the instant patent application is filed, access to: (1) the instant patent application-as-filed and its related bibliographic data, (2) any foreign or domestic application to which priority or benefit is claimed by the instant application and its related bibliographic data, and (3) the date of filing of this Authorization. See 37 CFR 1.14(h)(1).

B. Search Results from U.S. Application to EPO - Unless box B in subsection 2 (opt-out of authorization) is checked, the undersigned hereby grants the USPTO authority to provide the EPO access to the bibliographic data and search results from the instant patent application when a European patent application claiming priority to the instant patent application is filed. See 37 CFR 1.14(h)(2).

The applicant is reminded that the EPO's Rule 141(1) EPC (European Patent Convention) requires applicants to submit a copy of search results from the instant application without delay in a European patent application that claims priority to the instant application.

2. Opt-Out of Authorizations to Permit Access by a Foreign Intellectual Property Office(s)

A. Applicant **DOES NOT** authorize the USPTO to permit a participating foreign IP office access to the instant application-as-filed. If this box is checked, the USPTO will not be providing a participating foreign IP office with any documents and information identified in subsection 1A above.

B. Applicant **DOES NOT** authorize the USPTO to transmit to the EPO any search results from the instant patent application. If this box is checked, the USPTO will not be providing the EPO with search results from the instant application.

NOTE: Once the application has published or is otherwise publicly available, the USPTO may provide access to the application in accordance with 37 CFR 1.14.

IMPROPER SUBMISSION OF REQUEST UNDER 37 CFR 1.48(f)

The request under 37 CFR 1.48(f) (request to change inventorship) submitted on 08/20/2019 in the above-identified application is not accepted because:

- The request to correct or update the name of the inventor or a joint inventor, or the order of the names of joint inventors, under 37 CFR 1.48(f) is deficient because a corrected or updated application data sheet (ADS) in compliance with 37 CFR 1.76 (including markings showing the changes) has not been submitted. Any renewed request must include a corrected or updated ADS in compliance with 37 CFR 1.76 that identifies the information being changed, with underlining for insertions, and strike-through or brackets for text removed.

Questions about the contents of this notice and the requirements it sets forth should be directed to the Office of Data Management, Application Assistance Unit, at (571) 272-4000 or (571) 272-4200 or 1-888-786-0101.

RESPONSE TO REQUEST FOR CORRECTED FILING RECEIPT

Power of Attorney, Claims, Fees, System Limitations, and Miscellaneous

In response to your request for a corrected Filing Receipt, the Office is unable to comply with your request because:

- The ADS received on 08/20/2019 was not properly signed. Therefore, the Office will treat it only as a transmittal letter. See 37 CFR 1.76(e). Inventorship has not been set by this document and any foreign priority or domestic benefit claims contained therein are ineffective. See 37 CFR 1.55 or 37 CFR 1.78.

If the applicant wishes to submit another ADS:

- o It must be properly signed by a party under 37 CFR 1.33(b), and be signed in compliance with 37 CFR 1.4(d).
- o Changes to the information of record must be properly marked up in compliance with 37 CFR 1.76(c), i.e., must identify the information that is being changed, with underlining for insertions, and strike-through or brackets for text removed. In general, the identification of the information being changed should be made relative to the most recent filing receipt.
- o Benefit and priority claims must be presented in an ADS in compliance with 37 CFR 1.76(c) and within the time periods specified in 37 CFR 1.55 and 1.78.

If an ADS as set forth above is provided, the filing of the inventor's oath or declaration may be postponed until the application is otherwise in condition for allowance. See 37 CFR 1.53(f). Note that the inventor's oath or declaration must be filed no later than the date on which the issue fee has been paid.

In order to make changes to the information of record, an ADS must be properly signed and properly marked up relative to the current information of record.

Proper signature: The ADS must be signed with a handwritten signature or proper S-signature by:

- A patent practitioner, with the practitioner's registration number accompanying the signature (e.g., immediately below or adjacent to the signature), or
- The applicant, if the applicant is an individual other than the inventor(s) and no power of attorney has been appointed, or
- All of the inventors, if no other applicant has been established and no power of attorney has been appointed.

A proper S-signature consists of only letters and/or Arabic numerals, with appropriate spaces and commas, periods, apostrophes, or hyphens for punctuation contained between a first single forward slash mark before, and a second single forward slash mark after, the S-signature.

Proper markings: The ADS must identify the changes being made with underlining for insertions and strike-through or brackets for text removed. No other markings or indications are acceptable. Where an ADS providing corrected or updated information does not contain all of the sections of the ADS, the entire section in

which changes are being made must be included in the ADS. Information of record can generally be found on the latest filing receipt.

Questions about the contents of this notice and the requirements it sets forth should be directed to the Office of Data Management, Application Assistance Unit, at **(571) 272-4000** or **(571) 272-4200** or **1-888-786-0101**.

 Application No. 29/625,265
 Filed: 8 Nov 2017
 For: UTENSIL REST

DECISION ON PETITION

This is a decision on the petition filed August 20, 2019, under 37 CFR 1.137(a), to revive the above-identified application.

The petition is DISMISSED.

Any request for reconsideration of this decision must be submitted within TWO (2) MONTHS from the mail date of this decision. Extensions of time under 37 CFR 1.136(a) are permitted. The reconsideration request should include a cover letter entitled "Renewed Petition under 37 CFR 1.137(a)". This is not a final agency decision.

This application became abandoned July 16, 2019 for failure to timely pay the issue fee in response to the Notice of Allowance Mailed April 15, 2019, and to submit a properly executed inventor's oath or declaration in response to the Notice Requiring Inventor's Oath or Declaration mailed June 25, 2019. Accordingly, a Notice of Abandonment was mailed July 31, 2019.

Pursuant to 37 CFR 1.137(a) however, the instant petition lacks compliance with items (2) and (4) of the regulation.

The petition fee has been proffered with an authorization to charge the issue fee to a credit card. However, the charge to the credit card provided for the petition fee was declined. Since no authorizations for debiting a deposit account or any other method of payment was provided for any deficiencies, the petition to revive is not grantable.

Additionally, a petition to revive in a design application is required to be accompanied by a Terminal Disclaimer and the fee as set forth in 37 CFR 1.20(d).

Finally, on August 20, 2019 a request under 37 CFR 1.48(d) was submitted to correct the inventorship by correcting the name of the first named inventor.

Petitioners are reminded that Rule 37 CFR 1.312 prohibits amendments after the payment of an issue fee. Therefore, as the request for correction of inventorship is an amendment, a petition to withdraw the application from issue pursuant to 37 CFR 1.313 and an express abandonment in favor of a Continued Prosecution Application (CPA) since this is a design application, would be required for treatment of the request under 37 CFR 1.48(d).

The application will therefore remain in an abandoned status until such time as the above noted deficiencies have been cured.

Petitioner should note that submission of any renewed petition without the required reply will be construed as intentional delay.

WARNING:

Petitioner/applicant is cautioned to avoid submitting personal information in documents filed in a patent application that may contribute to identity theft. Personal information such as social security numbers, bank account numbers, or credit card numbers (other than a check or credit card authorization form PTO-2038 submitted for payment purposes) is never required by the USPTO to support a petition or an application. If this type of personal information is included in documents submitted to the USPTO, petitioners/applicants should consider redacting such personal information from the documents before submitting them to the USPTO. Petitioner/applicant is advised that the record of a patent application is available to the public after publication of the application (unless a non-publication request in compliance with 37 CFR 1.213(a) is made in the application) or issuance of a patent. Furthermore, the record from an abandoned application may also be available to the public if the application is referenced in a published application or an issued patent (see 37 CFR 1.14). Checks and credit card authorization forms PTO-2038 submitted for payment purposes are not retained in the application file and therefore are not publicly available.

Commissioner for Patents,

Dear Commissioner:

In response to the Notice of Abandonment dated July 31, 2019 in the above-captioned application, please be advised that the delay for the payment of the Issue Fee was entirely unintentional and due to the following reason:

1. The undersigned's law firm's former patent attorney, Joseph Englander, left the law firm to join another firm and accordingly updated the contact information associated with his customer number. After leaving the undersigned's law firm, Mr. Englander no longer represented the applicants.
2. A Notice of Allowance was issued by the USPTO on April 15, 2019. Because the Notice of Allowance was forwarded to Mr. Englander's new law firm, the undersigned

and the applicant did not receive and were not aware of the Notice of Allowance.

3. On August 2, 2019, Mr. Englander forwarded to the undersigned the Notice of Abandonment for failure to pay the Issue Fee by the deadline.

4. The delay in payment of the Issue Fee was not in any way the fault of the applicant, and revival of the application and acceptance of the issue fee would serve the interests of fairness and justice.

5. Together with the Petition for Revival of an Application for Patent Abandoned Unintentionally Under 37 CFR 1.137(a), the undersigned is submitting:

- a. a corrected Application Data Sheet to correct the name of one of the inventors (a notice advising the applicant of a defect in the oath of one of the inventors was issued by the USPTO on June 25, 2019);
- b. an executed Power of Attorney associated with the undersigned's customer number;
- c. payment of the Issue Fee;
- d. payment of the fee for the corrected Application Data Sheet; and
- e. payment of all other fees required in connection with the Petition for Revival of an Application for Patent Abandoned Unintentionally Under 37 CFR 1.137(a).

6. Accordingly, the undersigned respectfully requests that the application be revived and that the USPTO accept applicant's corrected Application Data Sheet and Issue Fee.

Dated August 20, 2019

NOTICE REQUIRING INVENTOR'S OATH OR DECLARATION

An inventor's oath or declaration in compliance with 37 CFR 1.63 or substitute statement in compliance with 37 CFR 1.64 executed by or with respect to each inventor has not yet been submitted.

The inventor's oath or declaration or substitute statement dated 11/08/2017 is defective. The inventor's oath or declaration does not comply with 37 CFR 1.63 or the substitute statement does not comply with 37 CFR 1.64 because it:

- does not include a statement that the person executing the oath or declaration or substitute statement believes the named inventor or joint inventor to be the original inventor or an original joint inventor of a claimed invention in the application for which the oath or declaration is being submitted.
- does not state that the application was made or was authorized to be made by the person executing the oath or declaration or substitute statement.
- does not acknowledge that any willful false statement made in such oath or declaration or substitute statement is punishable under section 1001 of title 18 by fine or imprisonment of not more than 5 years, or both.
- does not identify the person executing the oath or declaration or substitute statement by his or her legal name.
- does not identify the application to which the oath or declaration or substitute statement is directed.
- Other: A properly executed OATH/DECLARATION or SUBSTITUTE STATEMENT for the following Inventor(s) has not been received: Rui MEDEIROS

The substitute statement dated _____ does not comply with 37 CFR 1.64 because it:

- does not identify the inventor with respect to whom the statement applies.
- does not identify the relationship to the non-signing inventor.
- does not identify the circumstances permitting execution of the statement.
- was signed by someone other than the applicant.
- Other: _____

An oath or declaration in compliance with 37 CFR 1.63, or a substitute statement in compliance with 37 CFR 1.64, executed by or with respect to each inventor MUST be filed no later than the date on which the issue fee is paid. See 35 U.S.C. 115(f). Failure to timely comply will result in ABANDONMENT of this application. This period for reply is not extendable under 37 CFR 1.136(a).

Questions relating to this Notice should be directed to the Application Assistance Unit at 571-272-4200.

Receipt is acknowledged of this non-provisional design patent application. The application will be taken up for examination in due course. Applicant will be notified as to the results of the examination. Any correspondence concerning the application must include the following identification information: the U.S. APPLICATION NUMBER, FILING DATE, NAME OF FIRST INVENTOR, and TITLE OF INVENTION. Fees transmitted by check or draft are subject to collection.

Please verify the accuracy of the data presented on this receipt. If an error is noted on this Filing Receipt, please submit a written request for a corrected Filing Receipt, including a properly marked-up ADS showing the changes with strike-through for deletions and underlining for additions. If you received a "Notice to File Missing Parts" or other Notice requiring a response for this application, please submit any request for correction to this Filing Receipt with your reply to the Notice. When the USPTO processes the reply to the Notice, the USPTO will generate another Filing Receipt incorporating the requested corrections provided that the request is grantable.

PROTECTING YOUR INVENTION OUTSIDE THE UNITED STATES

Since the rights granted by a U.S. patent extend only throughout the territory of the United States and have no effect in a foreign country, an inventor who wishes patent protection in another country must apply for a patent in a specific country or in regional patent offices. Applicants may wish to consider the filing of an international application under the Patent Cooperation Treaty (PCT). An international (PCT) application generally has the same effect as a regular national patent application in each PCT-member country. The PCT process **simplifies** the filing of patent applications on the same invention in member countries, but **does not result** in a grant of "an international patent" and does not eliminate the need of applicants to file additional documents and fees in countries where patent protection is desired.

Almost every country has its own patent law, and a person desiring a patent in a particular country must make an application for patent in that country in accordance with its particular laws. Since the laws of many countries differ in various respects from the patent law of the United States, applicants are advised to seek guidance from specific foreign countries to ensure that patent rights are not lost prematurely.

Applicants also are advised that in the case of inventions made in the United States, the Director of the USPTO must issue a license before applicants can apply for a patent in a foreign country. The filing of a U.S. patent application serves as a request for a foreign filing license. The application's filing receipt contains further information and guidance as to the status of applicant's license for foreign filing.

Applicants may wish to consult the USPTO booklet, "General Information Concerning Patents" (specifically, the section entitled "Treaties and Foreign Patents") for more information on timeframes and deadlines for filing foreign patent applications. The guide is available either by contacting the USPTO Contact Center at 800-786-9199, or it can be viewed on the USPTO website at <http://www.uspto.gov/web/offices/pac/doc/general/index.html>.

For information on preventing theft of your intellectual property (patents, trademarks and copyrights), you may wish to consult the U.S. Government website, <http://www.stopfakes.gov>. Part of a Department of Commerce initiative, this website includes self-help "toolkits" giving innovators guidance on how to protect intellectual property in specific

countries such as China, Korea and Mexico. For questions regarding patent enforcement issues, applicants may call the U.S. Government hotline at 1-866-999-HALT (1-866-999-4258).

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Bureau of Industry and Security, Department of Commerce (15 CFR parts 730-774); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

THE APPLICATION IDENTIFIED ABOVE HAS BEEN EXAMINED AND IS ALLOWED FOR ISSUANCE AS A PATENT. PROSECUTION ON THE MERITS IS CLOSED. THIS NOTICE OF ALLOWANCE IS NOT A GRANT OF PATENT RIGHTS. THIS APPLICATION IS SUBJECT TO WITHDRAWAL FROM ISSUE AT THE INITIATIVE OF THE OFFICE OR UPON PETITION BY THE APPLICANT. SEE 37 CFR 1.313 AND MPEP 1308.

THE ISSUE FEE AND PUBLICATION FEE (IF REQUIRED) MUST BE PAID WITHIN THREE MONTHS FROM THE MAILING DATE OF THIS NOTICE OR THIS APPLICATION SHALL BE REGARDED AS ABANDONED. THIS STATUTORY PERIOD CANNOT BE EXTENDED. SEE 35 U.S.C. 151. THE ISSUE FEE DUE INDICATED ABOVE DOES NOT REFLECT A CREDIT FOR ANY PREVIOUSLY PAID ISSUE FEE IN THIS APPLICATION. IF AN ISSUE FEE HAS PREVIOUSLY BEEN PAID IN THIS APPLICATION (AS SHOWN ABOVE), THE RETURN OF PART B OF THIS FORM WILL BE CONSIDERED A REQUEST TO REAPPLY THE PREVIOUSLY PAID ISSUE FEE TOWARD THE ISSUE FEE NOW DUE.

HOW TO REPLY TO THIS NOTICE:

I. Review the ENTITY STATUS shown above. If the ENTITY STATUS is shown as SMALL or MICRO, verify whether entitlement to that entity status still applies.

If the ENTITY STATUS is the same as shown above, pay the TOTAL FEE(S) DUE shown above.

If the ENTITY STATUS is changed from that shown above, on PART B - FEE(S) TRANSMITTAL, complete section number 5 titled "Change in Entity Status (from status indicated above)".

For purposes of this notice, small entity fees are 1/2 the amount of undiscounted fees, and micro entity fees are 1/2 the amount of small entity fees.

II. PART B - FEE(S) TRANSMITTAL, or its equivalent, must be completed and returned to the United States Patent and Trademark Office (USPTO) with your ISSUE FEE and PUBLICATION FEE (if required). If you are charging the fee(s) to your deposit account, section "4b" of Part B - Fee(s) Transmittal should be completed and an extra copy of the form should be submitted. If an equivalent of Part B is filed, a request to reapply a previously paid issue fee must be clearly made, and delays in processing may occur due to the difficulty in recognizing the paper as an equivalent of Part B.

III. All communications regarding this application must give the application number. Please direct all communications prior to issuance to Mail Stop ISSUE FEE unless advised to the contrary.

IMPORTANT REMINDER: Maintenance fees are due in utility patents issuing on applications filed on or after Dec. 12, 1980. It is patentee's responsibility to ensure timely payment of maintenance fees when due. More information is available at www.uspto.gov/PatentMaintenanceFees.

PART B - FEE(S) TRANSMITTAL

Complete and send this form, together with applicable fee(s), by mail or fax, or via EFS-Web.

By mail, send to: Mail Stop ISSUE FEE

Determination of Patent Term Adjustment under 35 U.S.C. 154 (b)
 (Applications filed on or after May 29, 2000)

The Office has discontinued providing a Patent Term Adjustment (PTA) calculation with the Notice of Allowance.

Section 1(h)(2) of the AIA Technical Corrections Act amended 35 U.S.C. 154(b)(3)(B)(i) to eliminate the requirement that the Office provide a patent term adjustment determination with the notice of allowance. See Revisions to Patent Term Adjustment, 78 Fed. Reg. 19416, 19417 (Apr. 1, 2013). Therefore, the Office is no longer providing an initial patent term adjustment determination with the notice of allowance. The Office will continue to provide a patent term adjustment determination with the Issue Notification Letter that is mailed to applicant approximately three weeks prior to the issue date of the patent, and will include the patent term adjustment on the patent. Any request for reconsideration of the patent term adjustment determination (or reinstatement of patent term adjustment) should follow the process outlined in 37 CFR 1.705.

Any questions regarding the Patent Term Extension or Adjustment determination should be directed to the Office of Patent Legal Administration at (571)-272-7702. Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at 1-(888)-786-0101 or (571)-272-4200.

OMB Clearance and PRA Burden Statement for PTOL-85 Part B

The Paperwork Reduction Act (PRA) of 1995 requires Federal agencies to obtain Office of Management and Budget approval before requesting most types of information from the public. When OMB approves an agency request to collect information from the public, OMB (i) provides a valid OMB Control Number and expiration date for the agency to display on the instrument that will be used to collect the information and (ii) requires the agency to inform the public about the OMB Control Number's legal significance in accordance with 5 CFR 1320.5(b).

The information collected by PTOL-85 Part B is required by 37 CFR 1.311. The information is required to obtain or retain a benefit by the public which is to file (and by the USPTO to process) an application. Confidentiality is governed by 35 U.S.C. 122 and 37 CFR 1.14. This collection is estimated to take 30 minutes to complete, including gathering, preparing, and submitting the completed application form to the USPTO. Time will vary depending upon the individual case. Any comments on the amount of time you require to complete this form and/or suggestions for reducing this burden, should be sent to the Chief Information Officer, U.S. Patent and Trademark Office, U.S. Department of Commerce, P.O. Box 1450, Alexandria, Virginia 22313-1450. DO NOT SEND FEES OR COMPLETED FORMS TO THIS ADDRESS. SEND TO: Commissioner for Patents, P.O. Box 1450, Alexandria, Virginia 22313-1450. Under the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number.

Privacy Act Statement

The Privacy Act of 1974 (P.L. 93-579) requires that you be given certain information in connection with your submission of the attached form related to a patent application or patent. Accordingly, pursuant to the requirements of the Act, please be advised that: (1) the general authority for the collection of this information is 35 U.S.C. 2(b); (2) furnishing of the information solicited is voluntary; and (3) the principal purpose for which the information is used by the U.S. Patent and Trademark Office is to process and/or examine your submission related to a patent application or patent. If you do not furnish the requested information, the U.S. Patent and Trademark Office may not be able to process and/or examine your submission, which may result in termination of proceedings or abandonment of the application or expiration of the patent.

The information provided by you in this form will be subject to the following routine uses:

1. The information on this form will be treated confidentially to the extent allowed under the Freedom of Information Act (5 U.S.C. 552) and the Privacy Act (5 U.S.C. 552a). Records from this system of records may be disclosed to the Department of Justice to determine whether disclosure of these records is required by the Freedom of Information Act.
2. A record from this system of records may be disclosed, as a routine use, in the course of presenting evidence to a court, magistrate, or administrative tribunal, including disclosures to opposing counsel in the course of settlement negotiations.
3. A record in this system of records may be disclosed, as a routine use, to a Member of Congress submitting a request involving an individual, to whom the record pertains, when the individual has requested assistance from the Member with respect to the subject matter of the record.
4. A record in this system of records may be disclosed, as a routine use, to a contractor of the Agency having need for the information in order to perform a contract. Recipients of information shall be required to comply with the requirements of the Privacy Act of 1974, as amended, pursuant to 5 U.S.C. 552a(m).
5. A record related to an International Application filed under the Patent Cooperation Treaty in this system of records may be disclosed, as a routine use, to the International Bureau of the World Intellectual Property Organization, pursuant to the Patent Cooperation Treaty.
6. A record in this system of records may be disclosed, as a routine use, to another federal agency for purposes of National Security review (35 U.S.C. 181) and for review pursuant to the Atomic Energy Act (42 U.S.C. 218(c)).
7. A record from this system of records may be disclosed, as a routine use, to the Administrator, General Services, or his/her designee, during an inspection of records conducted by GSA as part of that agency's responsibility to recommend improvements in records management practices and programs, under authority of 44 U.S.C. 2904 and 2906. Such disclosure shall be made in accordance with the GSA regulations governing inspection of records for this purpose, and any other relevant (i.e., GSA or Commerce) directive. Such disclosure shall not be used to make determinations about individuals.
8. A record from this system of records may be disclosed, as a routine use, to the public after either publication of the application pursuant to 35 U.S.C. 122(b) or issuance of a patent pursuant to 35 U.S.C. 151. Further, a record may be disclosed, subject to the limitations of 37 CFR 1.14, as a routine use, to the public if the record was filed in an application which became abandoned or in which the proceedings were terminated and which application is referenced by either a published application, an application open to public inspection or an issued patent.
9. A record from this system of records may be disclosed, as a routine use, to a Federal, State, or local law enforcement agency, if the USPTO becomes aware of a violation or potential violation of law or regulation.

FIG. 6 is a bottom view thereof; and

FIG. 7 is a back ~~plan~~ view thereof.

The broken lines in the figures illustrate the portions of the design that form no part of the claimed design.

Amendments to the Drawings:

The sheets of drawings attached hereto as an Appendix include changes to the first sheet, which replaces the original sheet that included Figure 1, changes to the second sheet, which replaces the original sheet that included Figure 2, changes to the third sheet, which replaces the original sheet that included Figure 3, changes to the fourth sheet, which replaces the original sheet that included Figure 4, changes to the fifth sheet, which replaces the original sheet that included Figure 5, changes to the sixth sheet, which replaces the original sheet that included Figure 6, and changes to the seventh sheet, which replaces the original sheet that included Figure 7.

Each of the seven replacement sheets include amendments to its corresponding original sheet that include figures with better line quality and higher resolution to better define the claimed design. The replacement sheet corresponding to the original sheet that included Figure 6 identifies elements that are not part of the design sought to be patented. The elements that are not part of the design to be patented are identified by a broken line illustration.

Appendix: Replacement Sheets

REMARKS

This is a full and timely response to the outstanding Office Action dated November 19, 2018.

The changes herein reflect and include the matters addressed in the office action.

1. **Objection to the Drawing.**

As stated in the pending Office Action, the Examiner objected to the drawings because the line quality throughout the figures is poor and unclear and the solid lines appeared pixelated and merged to form heavy line weight in certain places, making the views unclear. The Examiner stated that for clarity in the disclosure, it is required that Applicant improve the line quality and better define the heavy line weight merged areas. The Examiner requested a full set of corrected drawings/replacement sheets in this reply to avoid abandonment of the application.

2. **Rejection under 35 USC §112(a) and (b).**

As stated in the pending Office Action, the Examiner rejected the claim because claimed invention was not described in such full, clear, concise and exact terms as to enable a person of reasonable skill in the art to make and use the same, and failed to particularly point out and distinctly claim the subject matter which Applicant regards as the invention. Furthermore, the claim was rejected as indefinite and non-enabling because the shape and appearance of the claimed design cannot be understood.

Specifically, the Examiner noted that the drawing in Figure 6 reflects the bottom surface shown with two rectangular surfaces where no other view shows such enclosed surfaces, making the exact depth and surface delineations of the bottom surfaces unclear.

3. Changes to the Drawings.

Per the Examiner's comments and suggestions as set forth in the pending Office Action, Applicant has amended the pending application to amend the original Figures 1, 2, 3, 4, 5, 6 and 7. Figure 1, 2, 3, 4, 5, 6, and 7 have been amended to show improved line quality and high resolution drawings that better define the heavy line weight merged areas. Figure 6 has further been amended to show, through a broken line illustration, that certain elements in the drawing are not part of the design sought to be patented. The amendments to the drawings do not add any new material to the application. They merely improve the quality of the drawings and clarify that certain elements illustrated in the drawings are not part of the design sought to be patented. Accordingly, it is respectfully submitted that the rejection has been overcome through the above referenced amendments and respectfully that the rejection be withdrawn.

The present application is in condition for allowance of the claim, and Applicant respectfully requests favorable action. In order to facilitate the resolution of any questions, the Examiner is invited to contact the undersigned attorney.

Respectfully submitted,

OFFICE ACTION

The present application, filed on or after March 16, 2013, is being examined under the first inventor to file provisions of the AIA.

Objection to the Drawing

The line quality throughout the figures is poor and unclear. The solid lines appear pixelated and have merged to form heavy line weight in places, making the views unclear. For clarity in the disclosure, it is required that applicant improve the line quality and better define the heavy line weight merged areas (please refer to 37CFR 1.84(k,l,m) for additional guidance). See below exemplary annotation.

Please submit a full set of corrected drawings / replacement sheets.

Corrected drawing sheets are required in reply to the Office action to avoid abandonment of the application.

Replacement Sheets

Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended."

Application/Control Number: 29/625,265
Art Unit: 2912

Page 3

If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. If all the figures on a drawing sheet are canceled, a replacement sheet is not required. A marked-up copy of the drawing sheet (labeled as "Annotated Sheet") including an annotation showing that all the figures on that drawing sheet have been canceled must be presented in the amendment or remarks section that explains the change to the drawings. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d).

If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action.

When preparing new drawings in compliance with the requirement therefor, care must be exercised to avoid introduction of anything which could be construed to be new matter prohibited by 35 U.S.C. 132 and 37 CFR 1.121(f). This pertains to either: the addition to, or the removal of, any elements shown in the originally disclosed design.

Objection to the Specification

For clarity and proper view designations, the descriptions of **Figs. 1-4 and 7** should be amended as follows:

- **FIG. 1 is a top front perspective view of a utensil rest, showing our new design;**
- FIG. 2 is a front view thereof;**
- FIG. 3 is a right side view thereof;**
- FIG. 4 is a left side view thereof; --**
- **FIG. 7 is a back view thereof. --**

If applicant elects to use the broken lines as suggested in the rejection below, the following statement must be used to describe the broken lines on the drawing (MPEP § 1503.02, subsection III):

- **The broken lines in the figures illustrate the portions of the design that form no part of the claimed design. --**

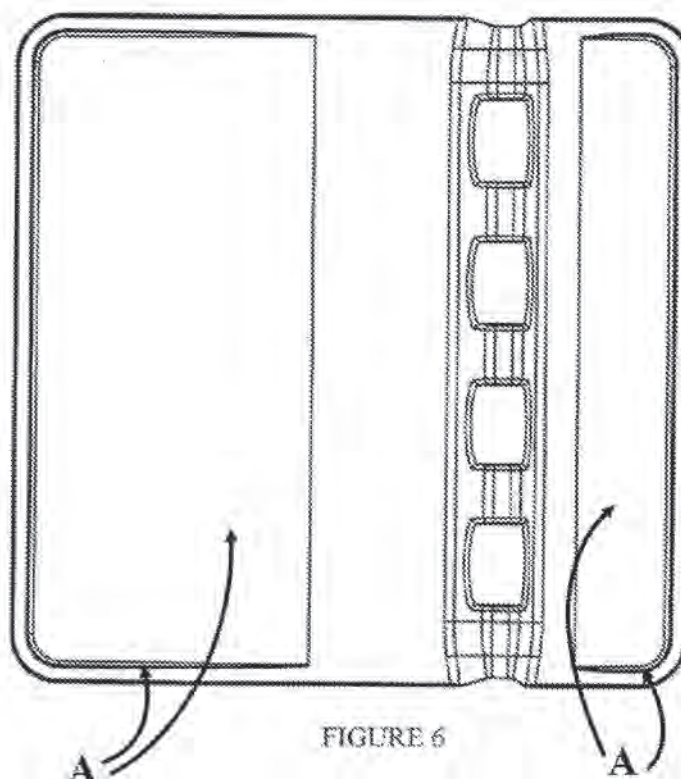

If used, the above statement should be inserted in the specification preceding the claim.

Rejection – 35 U.S.C. § 112

The claim is rejected under 35 U.S.C. 112(a) and (b) or pre-AIA 35 U.S.C. 112, first and second paragraphs, as the claimed invention is not described in such full, clear, concise and exact terms as to enable any person skilled in the art to make and use the same, and fails to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claim is indefinite and nonenabling because the shape and appearance of the claimed design cannot be understood due to the following:

Fig. 6 shows bottom surface shown with two rectangular surfaces (**A**) where no other view shows such enclosed surfaces, making the exact depth and surface delineations of the bottom surfaces unclear. Therefore, it is suggested to convert all of the full line details of (**A**) to broken lines in order to eliminate claim to the indefinite subject matter. See below annotation for clarification.

Failure to submit replacement correction sheets overcoming all of the deficiencies in the drawing disclosure set forth above, or an explanation why the drawing corrections or additional drawing views are not necessary will result in the rejection of the claim under 35 U.S.C. 112(a) and (b) or pre-AIA 35 U.S.C. 112, first and second paragraphs, being made FINAL in the next Office action.

PROTECTING YOUR INVENTION OUTSIDE THE UNITED STATES

Since the rights granted by a U.S. patent extend only throughout the territory of the United States and have no effect in a foreign country, an inventor who wishes patent protection in another country must apply for a patent in a specific country or in regional patent offices. Applicants may wish to consider the filing of an international application under the Patent Cooperation Treaty (PCT). An international (PCT) application generally has the same effect as a regular national patent application in each PCT-member country. The PCT process **simplifies** the filing of patent applications on the same invention in member countries, but **does not result** in a grant of "an international patent" and does not eliminate the need of applicants to file additional documents and fees in countries where patent protection is desired.

Almost every country has its own patent law, and a person desiring a patent in a particular country must make an application for patent in that country in accordance with its particular laws. Since the laws of many countries differ in various respects from the patent law of the United States, applicants are advised to seek guidance from specific foreign countries to ensure that patent rights are not lost prematurely.

Applicants also are advised that in the case of inventions made in the United States, the Director of the USPTO must issue a license before applicants can apply for a patent in a foreign country. The filing of a U.S. patent application serves as a request for a foreign filing license. The application's filing receipt contains further information and guidance as to the status of applicant's license for foreign filing.

Applicants may wish to consult the USPTO booklet, "General Information Concerning Patents" (specifically, the section entitled "Treaties and Foreign Patents") for more information on timeframes and deadlines for filing foreign patent applications. The guide is available either by contacting the USPTO Contact Center at 800-786-9199, or it can be viewed on the USPTO website at <http://www.uspto.gov/web/offices/pac/doc/general/index.html>.

For information on preventing theft of your intellectual property (patents, trademarks and copyrights), you may wish to consult the U.S. Government website, <http://www.stopfakes.gov>. Part of a Department of Commerce initiative, this website includes self-help "toolkits" giving innovators guidance on how to protect intellectual property in specific countries such as China, Korea and Mexico. For questions regarding patent enforcement issues, applicants may call the U.S. Government hotline at 1-866-999-HALT (1-866-999-4258).

LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Bureau of Industry and Security, Department of Commerce (15 CFR parts 730-774); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

<p>ADDRESS TO: Commissioner for Patents P.O. Box 1450 Alexandria, VA 22313-1450</p>	<p><i>DESIGN V. UTILITY:</i> A "design patent" protects an article's ornamental appearance (e.g., the way an article looks) (35 U.S.C. 171), while a "utility patent" protects the way an article is used and works (35 U.S.C. 101). The ornamental appearance of an article includes its shape/configuration or surface ornamentation upon the article, or both. Both a design and a utility patent may be obtained on an article if invention resides both in its ornamental appearance and its utility. For more information, see MPEP § 1502.01.</p>

This Acknowledgement Receipt evidences receipt on the noted date by the USPTO of the indicated documents, characterized by the applicant, and including page counts, where applicable. It serves as evidence of receipt similar to a Post Card, as described in MPEP 503.

New Applications Under 35 U.S.C. 111

If a new application is being filed and the application includes the necessary components for a filing date (see 37 CFR 1.53(b)-(d) and MPEP 506), a Filing Receipt (37 CFR 1.54) will be issued in due course and the date shown on this Acknowledgement Receipt will establish the filing date of the application.

National Stage of an International Application under 35 U.S.C. 371

If a timely submission to enter the national stage of an international application is compliant with the conditions of 35 U.S.C. 371 and other applicable requirements a Form PCT/DO/EO/903 indicating acceptance of the application as a national stage submission under 35 U.S.C. 371 will be issued in addition to the Filing Receipt, in due course.

New International Application Filed with the USPTO as a Receiving Office

If a new international application is being filed and the international application includes the necessary components for an international filing date (see PCT Article 11 and MPEP 1810), a Notification of the International Application Number and of the International Filing Date (Form PCT/RO/105) will be issued in due course, subject to prescriptions concerning national security, and the date shown on this Acknowledgement Receipt will establish the international filing date of the application.

ASSIGNMENT

IN CONSIDERATION of the sum of One Dollar (\$1.00), and of other good and valuable consideration paid to the undersigned by the Assignee,

VACU VIN INNOVATIONS LTD.

a private company with limited liability organized under the laws of the Netherlands, domiciled at

Groothandelsweg 1, 2645 EH Delfgauw, The Netherlands

receipt whereof is hereby acknowledged, the undersigned by these presents hereby sells, assigns, transfers, and sets over unto said assignee the entire right, title and interest in and to the invention or improvement in

DESIGN FOR "UTENSIL REST"

said invention being fully described and/or claimed in the application for Letters Patent of the United States of America, executed this date/ these dates, as well as any divisional, continuing, reissue, reexamination, or other patent applications, in and for the United States and all foreign countries, the same to be held and enjoyed by said assignee, its successors, assigns or other legal representatives, to the full ends of the terms for which all Letters Patent therefore may be granted, as fully and entirely as the same would have been held and enjoyed by the undersigned if this assignment and sale had not been made.

AND SAID ASSIGNEE IS HEREBY AUTHORIZED to make application for and to receive Letters Patent for said invention in any of said countries at its election.

AND BY THIS COVENANT the undersigned will execute or procure any further necessary assurance of title to said invention and Letters Patent; and at any time, upon the request of said assignee, will execute and deliver any and all papers that may be necessary or desirable to perfect the title to said invention or any Letters Patent which may be granted therefor to said Assignee, its successors, assigns or other legal representatives, and, upon the request of said assignee, will execute any divisional, continuing, reissue, reexamination, or other applications for patents for said invention, in any country, and will make all rightful oaths and do all lawful acts requisite for aiding, procuring, or maintaining the same or for aiding therein.

AND THE COMMISSIONER of Patents is hereby authorized and requested to issue any and all Letters Patent to the United States for said invention, to said assignee.

CLAIM

We CLAIM: The ornamental design for a "UTENSIL REST" as shown and described.

STATEMENT UNDER 37 CFR 3.73(c)Applicant/Patent Owner: Vacu Vin Innovations Ltd.

Application No./Patent No.: _____ Filed/Issue Date: _____

Titled: UTENSIL RESTVacu Vin Innovations Ltd., a corporation

(Name of Assignee)

(Type of Assignee, e.g., corporation, partnership, university, government agency, etc.)

states that, for the patent application/patent identified above, it is (choose **one** of options 1, 2, 3 or 4 below):

1. The assignee of the entire right, title, and interest.
2. An assignee of less than the entire right, title, and interest (check applicable box):
- The extent (by percentage) of its ownership interest is _____%. Additional Statement(s) by the owners holding the balance of the interest must be submitted to account for 100% of the ownership interest.
- There are unspecified percentages of ownership. The other parties, including inventors, who together own the entire right, title and interest are:

Additional Statement(s) by the owner(s) holding the balance of the interest must be submitted to account for the entire right, title, and interest.

3. The assignee of an undivided interest in the entirety (a complete assignment from one of the joint inventors was made). The other parties, including inventors, who together own the entire right, title, and interest are:

Additional Statement(s) by the owner(s) holding the balance of the interest must be submitted to account for the entire right, title, and interest.

4. The recipient, via a court proceeding or the like (e.g., bankruptcy, probate), of an undivided interest in the entirety (a complete transfer of ownership interest was made). The certified document(s) showing the transfer is attached.

The interest identified in option 1, 2 or 3 above (not option 4) is evidenced by either (choose **one** of options A or B below):

- A. An assignment from the inventor(s) of the patent application/patent identified above. The assignment was recorded in the United States Patent and Trademark Office at Reel _____, Frame _____, or for which a copy thereof is attached.
- B. A chain of title from the inventor(s), of the patent application/patent identified above, to the current assignee as follows:
1. From: _____ To: _____
The document was recorded in the United States Patent and Trademark Office at Reel _____, Frame _____, or for which a copy thereof is attached.
2. From: _____ To: _____

Authorization or Opt-Out of Authorization to Permit Access:

When this Application Data Sheet is properly signed and filed with the application, applicant has provided written authority to permit a participating foreign intellectual property (IP) office access to the instant application-as-filed (see paragraph A in subsection 1 below) and the European Patent Office (EPO) access to any search results from the instant application (see paragraph B in subsection 1 below).

Should applicant choose not to provide an authorization identified in subsection 1 below, applicant **must opt-out** of the authorization by checking the corresponding box A or B or both in subsection 2 below.

NOTE: This section of the Application Data Sheet is **ONLY** reviewed and processed with the **INITIAL** filing of an application. After the initial filing of an application, an Application Data Sheet cannot be used to provide or rescind authorization for access by a foreign IP office(s). Instead, Form PTO/SB/39 or PTO/SB/69 must be used as appropriate.

1. Authorization to Permit Access by a Foreign Intellectual Property Office(s)

A. Priority Document Exchange (PDX) - Unless box A in subsection 2 (opt-out of authorization) is checked, the undersigned hereby **grants the USPTO authority** to provide the European Patent Office (EPO), the Japan Patent Office (JPO), the Korean Intellectual Property Office (KIPO), the State Intellectual Property Office of the People's Republic of China (SIPO), the World Intellectual Property Organization (WIPO), and any other foreign intellectual property office participating with the USPTO in a bilateral or multilateral priority document exchange agreement in which a foreign application claiming priority to the instant patent application is filed, access to: (1) the instant patent application-as-filed and its related bibliographic data, (2) any foreign or domestic application to which priority or benefit is claimed by the instant application and its related bibliographic data, and (3) the date of filing of this Authorization. See 37 CFR 1.14(h)(1).

B. Search Results from U.S. Application to EPO- Unless box B in subsection 2 (opt-out of authorization) is checked, the undersigned hereby **grants the USPTO authority** to provide the EPO access to the bibliographic data and search results from the instant patent application when a European patent application claiming priority to the instant patent application is filed. See 37 CFR 1.14(h)(2).

The applicant is reminded that the EPO's Rule 141(1) EPC (European Patent Convention) requires applicants to submit a copy of search results from the instant application without delay in a European patent application that claims priority to the instant application.

2. Opt-Out of Authorizations to Permit Access by a Foreign Intellectual Property Office(s)

A. Applicant **DOES NOT** authorize the USPTO to permit a participating foreign IP office access to the instant application-as-filed. If this box is checked, the USPTO will not be providing a participating foreign IP office with any documents and information identified in subsection 1A above.

B. Applicant **DOES NOT** authorize the USPTO to transmit to the EPO any search results from the instant patent application. If this box is checked, the USPTO will not be providing the EPO with search results from the instant application.

NOTE: Once the application has published or is otherwise publicly available, the USPTO may provide access to the application in accordance with 37 CFR 1.14.

Under the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it contains a valid OMB control number.

Hello,

We removed some of your listings because we received a report from a rights owner alleging that they infringe on the rights owner's patent. The rights owner communication about the alleged infringement and the listings we removed are at the bottom of this message.

Why did this happen?

We received a report from a rights owner alleging that one or more of your listings may be infringing the intellectual property rights of others. Listing content infringing on the intellectual property of others is against our policies.

We're here to help.

If you need help understanding why your listings may infringe the intellectual property of others, please search for "Intellectual Property Violations" in Seller Central Help: <https://sellercentral.amazon.com/gp/help/external/201361070>

How do I reactivate my listing?

To reactivate your listing, you may provide the following:
-- A letter of authorization or a licensing agreement from the manufacturer or rights owner demonstrating that your product sales are lawful. External links are not accepted. For security reasons, we only accept attachments in the following file formats: .jpeg, .jpg, .pjpeg, .gif, .png, .tiff.

-- An invoice to indicate that your products are original and are purchased from the rights owner directly or from an authorized distributor and are not infringing the patent claimed by the rights owner. You can find the contact information of the rights owner at the bottom of this message.

How do I submit this information?

Go to Received Intellectual Property Complaints under the Product Policy Compliance section in Account Health: https://sellercentral.amazon.com/performance/dashboard?ref=ah_em_mpa

Locate the deactivation record for this product listing. Click on the Appeal button next to the listing deactivation record to submit information necessary to reactivate your listing.

Have your listings been removed in error?

If you have never sold or listed the product, please reach out to us and tell us.

If you think that the rights owner has made an error in sending the notice, please reach out to the rights owner and ask them to submit a retraction of this notice. We may only accept retractions that the rights owner submits to us directly. We do not accept forwarded or attached retractions.

These are the rights owner's contact details:

-- Michiel

— mpereira@vacuvin.com

For any other reason, please explain to us why you were warned in error so that we can investigate the case.

What happens if I do not provide the requested information?
If we do not receive the requested information, your listings will remain inactive.

If you do not provide the information within 60 days, you will receive a request to remove the inventory associated with these listings per our removal policy (<https://sellercentral.amazon.com/gp/help/202000820>). Failure to address this request can lead to destruction of your inventory.

Rights owner communication: I am writing on behalf of Vacu Vin Innovations, Ltd., the rightful owner of design patent number USD904832S1 ("the Patent") registered with the United States Patent and Trademark Office (USPTO). It has recently come to our attention that multiple sellers on your platform are selling products that infringe on this patent. These infringements are a direct violation of our intellectual property rights.

The patent in question relates to an ornamental design of a utensil rest. A record of our patent can be found in the public database of USPTO at the following link: <https://patents.google.com/patent/USD904832S1>.

We have examined the listings and the product images provided, and we believe, in good faith, that the items being sold by these sellers are in clear violation of our patent rights.

As a result, we request your immediate assistance in the removal of these listings.

We understand that Amazon respects intellectual property rights and takes patent infringement seriously. By taking immediate action, you will assist us in preventing the further unauthorized use of our patented design.

This letter does not constitute an exhaustive statement of AMZ Watchdog's nor Vacu Vin Innovations, LTD.'s rights, remedies, claims or defenses, all of which are expressly reserved.

Thank you for your prompt attention to this serious matter.

Yours sincerely,

Chris Keef

Hello,

We removed some of your listings because we received a report from a rights owner that they infringe the rights owner's patent. The rights owner communication about the alleged infringement and the listings we removed are at the bottom of this message.

Why did this happen?

We received a report from a rights owner alleging that one or more of your listings may be infringing the intellectual property rights of others. Listing content infringing on the intellectual property of others is against our policies.

We're here to help.

If you need help understanding why your listings may infringe the intellectual property of others, please search for "Intellectual Property Violations" in Seller Central Help (<https://sellercentral.amazon.com/gp/help/external/201361070>).

How do I reactivate my listing?

To reactivate your listing you may provide the following:
— A letter of authorization or a licensing agreement from the manufacturer or rights owner demonstrating that your product sales are lawful. External links are not accepted. For security reasons, we only accept attachments in the following file formats: .jpeg, .jpg, .jpeg, .gif, .png, .tiff.

How do I submit this information?

Go to Received Intellectual Property Complaints under the Product Policy Compliance section in account health (https://sellercentral.amazon.com/performance/dashboard?ref=ah_em_mpa) and locate the deactivation record for this product listing. Click on the Appeal button next to the listing deactivation record to submit information necessary to reactivate your listing.

Have your listings been removed in error?

If you have never sold or listed the product, please reach out to us and tell us.

If you think that the rights owner has made an error in sending the notice, please reach out to the rights owner and ask for a retraction of the notice. To retract the complaint, the rights owner must send the retraction to us at notice-retraction@amazon.com or use the retraction function in Brand Registry.

These are the rights owner's contact details:

Brand Protection
vacuvin-bp@amzwatchdog.com

We can only accept retractions if the rights owner clearly states that they made an error. For any other reason, please explain to us why you were warned in error so that we can investigate the case.

What happens if I do not provide the requested information?

If we do not receive the requested information, your listings will remain inactive.

If you do not provide the information within 60 days, you will receive a request to remove the inventory associated with these listings per our removal policy (<https://sellercentral.amazon.com/gp/help/202000820>). Failure to address this request can lead to destruction of your inventory.

Rights owner communication:

I am writing on behalf of Vacu Vin Innovations, Ltd., the rightful owner of design patent number USD904832S1 ("the Patent") registered with the United States Patent and Trademark Office (USPTO). It has recently come to our attention that multiple sellers on your platform are selling products that infringe on this patent. These infringements are a direct violation of our intellectual property rights.

The patent in question relates to an ornamental design of a utensil rest. A record of our patent can be found in the public database of USPTO at the following link: <https://patents.google.com/patent/USD904832S1>.

We have examined the listings and the product images provided, and we believe, in good faith, that the items being sold by these sellers are in clear violation of our patent rights, as they are selling IDENTICAL ITEMS without our authorization

As a result, we request your immediate assistance in the removal of these listings.

We understand that Amazon respects intellectual property rights and takes patent infringement seriously. By taking immediate action, you will assist us in preventing the further unauthorized use of our patented design.
