**COUNT 1: INFRINGEMENT OF THE '263 PATENT**

24  
25           10.    Plaintiff incorporates the above paragraphs herein by reference.  
26

11. **Direct Infringement.** Defendant has been and continues to directly  
1 infringe one or more claims of the '263 Patent in at least this District by making,  
2 using, offering to sell, selling and/or importing, without limitation, at least the  
3 Defendant products identified in the charts incorporated into this Court below  
4 (among the "Exemplary Defendant Products") that infringe at least the exemplary  
5 claims of the '263 Patent also identified in the charts incorporated into this Court  
6 below (the "Exemplary '263 Patent Claims") literally or by the doctrine of  
7 equivalents. On information and belief, numerous other devices that infringe the  
8 claims of the '263 Patent have been made, used, sold, imported, and offered for  
9 sale by Defendant and/or its customers.  
10  
11  
12

On information and belief, Defendant has also continued to sell the Exemplary Defendant Products and distribute product literature and website materials inducing end users and others to use its products in the customary and intended manner that infringes the '263 Patent. See Exhibit 2 (extensively referencing these materials to demonstrate how they direct end users to commit patent infringement).

15. **Induced Infringement.** At least since being served by this Complaint and corresponding claim charts, Defendant has actively, knowingly, and intentionally continued to induce infringement of the '263 Patent, literally or by the doctrine of equivalents, by selling Exemplary Defendant Products to their customers for use in end-user products in a manner that infringes one or more claims of the '263 Patent.
