5. This Court has exclusive subject matter jurisdiction under 28 U.S.C. §§ 1331 and 1338(a).

6. This Court has personal jurisdiction over Defendant because it has engaged in systematic and continuous business activities in this District. As described below, Defendant has committed acts of patent infringement giving rise to this action within this District.

Plaintiff is the assignee of all right, title and interest in United States Patent No. 6,931,597 (the “Patent-in-Suit”); including all rights to enforce and prosecute actions for infringement and to collect damages for all relevant times against infringers of the Patent-in-Suit. Accordingly, Plaintiff possesses the exclusive right and standing to prosecute the present action for infringement of the Patent-in-Suit by Defendant.

THE '597 PATENT

9. The '597 Patent is entitled “Indications of Secured Digital Assets,” and issued 2005-08-16. The application leading to the '597 Patent was filed on 2002-04-17. A true and correct copy of the '597 Patent is attached hereto as Exhibit 1 and incorporated herein by reference.

COUNT 1: INFRINGEMENT OF THE '597 PATENT

10. Plaintiff incorporates the above paragraphs herein by reference.

11. **Direct Infringement.** Defendant directly infringed one or more claims of the '597 Patent in at least this District by making, using, offering to sell, selling and/or importing,

without limitation, at least the Defendant products identified in the charts incorporated into this Count below (among the “Exemplary Defendant Products”) that infringed at least the exemplary method claims of the ’597 Patent also identified in the charts incorporated into this Count below (the “Exemplary ’597 Patent Claims”) literally or by the doctrine of equivalents. On information and belief, numerous other devices that infringed the claims of the ’597 Patent have been made, used, sold, imported, and offered for sale by Defendant and/or its customers.

12. Defendant also directly infringed, literally or under the doctrine of equivalents, the Exemplary ’597 Patent Claims, by having its employees internally test and use these Exemplary Products.

13. Exhibit 2 includes charts comparing the Exemplary ’597 Patent Claims to the Exemplary Defendant Products. As set forth in these charts, the Exemplary Defendant Products practice the technology claimed by the ’597 Patent. Accordingly, the Exemplary Defendant Products incorporated in these charts satisfy all elements of the Exemplary ’597 Patent Claims.

14. Plaintiff therefore incorporates by reference in its allegations herein the claim charts of Exhibit 2.

15. Plaintiff is entitled to recover damages adequate to compensate for Defendant's infringement.
